## BUSINESS REVIEW

### Profitability analysis

The Group's consolidated revenue decreased by 9% to HK\$1,255.1 million in 2016 (2015: HK\$1,382.4 million). As a result of the completion of the disposal of the Group's interest in the Argent Urban Renewal Project (the "Disposal") as disclosed in the Company's announcements dated 19th August, 2014, 8th October, 2014, 13th October, 2015, 3rd May, 2016, 30th December, 2016 and circular dated 19th September, 2014, the Group reported a profit attributable to owners of the Company and earnings per share of HK\$835.8 million and HK\$2.18 respectively (2015: loss attributable to owners of the Company and loss per share of HK\$48.9 million and HK\$0.13 respectively).

The Group entered into the relocation agreement for the Disposal in 2014 and took two years to complete the Disposal and factory relocation. The net gain on the Disposal recognised in 2016 was HK\$1,218.8 million, being the consideration for the Disposal of HK\$1,767.1 million, less the net book value of the Argent Land and the properties erected thereon of HK\$125.3 million, the second payment of the service fee under the service agreement with Shenzhen Quanlianhong Property Consulting Co., Ltd. of HK\$41.3 million and taxes paid/payable of HK\$381.7 million. If the net economic compensation for past service paid to employees of the Group of HK\$285.2 million ("Economic Compensation") recognised as an administrative expense in 2016 and the cost and expenses related to the Disposal of HK\$128.3 million incurred in 2014 and 2015 were deducted, the final amount for the total net income after the Disposal and factory relocation was HK\$805.3 million.

On the other hand, the Group's core business was still under pressure in 2016. This was mainly attributable to:

- (i) the negative impact on the profitability of the Group arising from diseconomies of scale as the Group's consolidated revenue decreased by 9% in 2016 as compared with 2015;
- (ii) the continuous increase in labour costs and other operating costs in Mainland China in 2016; and
- (iii) higher depreciation charges of the new buildings and leasehold improvements in the factory sites in Pingdi Town of Shenzhen City, Heyuan City and Zhongshan City.

LAURA ASHLEY

## Chairman's Statement

### Original design manufacturing (ODM) division

Our ODM division was the key revenue contributor and revenue generated by this division contributed to 82% of the consolidated revenue of the Group in 2016 (2015: 84%). Sales to ODM customers decreased by 12% from HK\$1,167.0 million in 2015 to HK\$1,027.0 million in 2016. Geographically, sales to customers in Europe, the United States (the "US") and Asia accounted for 62%, 31% and 7% respectively of the revenue of the ODM division in 2016 (2015: 63%, 28% and 9% respectively). Sales performance in the European market was adversely affected by the depreciation of the Euro against the US dollar and the impact on market confidence after the referendum vote of Brexit in June 2016. Concerns over possible interest rate hikes and the presidential election had also dampened the consumers' demand for the Group's products in the US. In Asia, the purchasing power of customers was eroded by the depreciation of local currencies against the US dollar during the year under review. Sales to Europe, the US and Asia dropped by 14%, 2% and 26% respectively in 2016. On the product side, the Group maintained a fairly balanced sales mix between prescription frames and sunglasses in 2016. Sales of prescription frames, sunglasses and spare parts accounted for 53%, 45% and 2% respectively of revenue of the ODM division in both 2016 and 2015.

### Distribution and retailing divisions

Our distribution division continued to benefit from the consumers' preference for value frames in the face of economic challenges. Revenue generated by the distribution division increased moderately by 6% from HK\$212.9 million in 2015 to HK\$226.1 million in 2016 and accounted for 18% of the consolidated revenue of the Group in 2016 (2015: 15%). The Group's house brand and licensed brand products were sold to retailers through the Group's wholesale arms in the United Kingdom and France and independent distributors in other countries. Europe was still the biggest market but its relative proportion of sales decreased due to higher growth rates recorded for sales to other geographical markets. Sales to Europe, Asia, the US and other regions accounted for 59%, 19%, 11% and 11% respectively of the revenue of the distribution division in 2016 (2015: 63%, 19%, 5% and 13% respectively). Sales to Europe were flat whereas sales to Asia and the US were up by 8% and 121% respectively. STEPPER, the German brand owned by the Group, continued to be the most popular brand in our distribution division whereas sales of other house brands and licensed brands were catching up fast.

Revenue of the retailing division decreased from HK\$2.5 million in 2015 to HK\$2.0 million in 2016 and continued to contribute less than 1% to the consolidated revenue of the Group.

## Financial position and liquidity

### Cash flows

The Group recorded a net cash outflow from operating activities of HK\$321.0 million (2015: net cash inflow of HK\$135.1 million) due to the payment of the one-time Economic Compensation of HK\$285.2 million during the factory relocation and the decline of profitability of the core business of the Group during 2016. The second, third and fourth instalments of the Disposal net of withholding tax paid with an aggregate amount of HK\$1,064.4 million ("Net Remaining Instalments") were received during the year. Substantial capital expenditure of HK\$403.9 million for the factory relocation was made in 2016 after HK\$420.9 million and HK\$230.3 million were spent in 2015 and 2014 respectively. The Group also arranged two term loans with banks with a total amount of HK\$160.0 million to finance the payment of Economic Compensation before the receipt of the Net Remaining Instalments. The net cash position of the Group (being the total of short-term bank deposits as well as bank balances and cash less bank borrowings) increased from HK\$149.2 million as at 31st December, 2015 to HK\$410.2 million as at 31st December, 2016.

### Working capital management

As the Chinese New Year holidays in 2017 were much closer to the year end date of 2016, delivery of goods was at a comparatively higher level in the last month of 2016 as compared to that of 2015, resulting in a 6% increase in the total amounts of trade debtors and bills receivable amounting to HK\$349.3 million as at 31st December, 2016 (31st December, 2015: HK\$329.1 million). Debtors turnover period (being the ratio of the total of trade debtors and bills receivable to revenue) increased correspondingly from 87 days in 2015 to 102 days in 2016. In line with the decline in revenue by 9% in 2016, inventory balances decreased by 15% from 191.8 million as at 31st December, 2015 to HK\$162.9 million as at 31st December, 2016. Inventory turnover period (being the ratio of inventory balances to cost of sales) also decreased from 62 days in 2015 to 54 days in 2016 following the Group's strenuous efforts made in reducing the production lead time. As a result of receipt of the Net Remaining Instalments during the year and recognition of the first instalment payment of HK\$681.0 million (previously recorded as current liabilities as at 31st December, 2015) as income upon completion of the Disposal, the Group had a strong net current assets position of HK\$508.4 million as at 31st December, 2016 (31st December, 2015: net current liabilities of HK\$167.8 million). Accordingly, the current ratio (being the ratio of total current assets to total current liabilities) of the Group also increased from 0.8 to 1.0 as at 31st December, 2015 to 1.8 to 1.0 as at 31st December, 2016.

# Chairman's Statement

## *Gearing position*

The Group maintained a low gearing position throughout 2016. The debt to equity ratio (expressed as a percentage of non-current liabilities over equity attributable to owners of the Company) remained at around 1% as at both 31st December, 2016 and 31st December, 2015. The non-current liabilities of the Group comprised only deferred taxation which amounted to HK\$11.0 million as at 31st December, 2016 (31st December, 2015: HK\$12.1 million).

## *Net asset value*

The Group had 383,650,000 shares in issue as at both 31st December, 2016 and 31st December, 2015. As a result of the recognition of net gain on the Disposal, both the equity attributable to owners of the Company and net asset per share increased from HK\$1,061.9 million and HK\$2.77 respectively as at 31st December, 2015 to HK\$1,820.1 million and HK\$4.74 respectively as at 31st December, 2016.

## *Foreign currency exposure*

The Group was exposed to the fluctuation of Renminbi against both the US dollar and the Hong Kong dollar. Save as above, the Group had limited exposure to foreign exchange rate fluctuations as most of its transactions were conducted in either US dollars, Hong Kong dollars or Renminbi and the exchange rate movements between the US dollar and Hong Kong dollar were relatively stable during the year under review.

## **PROSPECTS**

### **Market outlook**

The macro environment that the Group is facing has been one of the toughest we have ever seen. Factors affecting our ODM division in 2016 will continue to cast uncertainty in the market and affect consumer confidence in 2017. We keep working closely with our key customers to streamline their supply chains model and create value to their businesses. Our strategic partnership with the 50% owned associate in Italy, Trenti Industria Occhiali S.r.l. ("Trenti"), provides "Made in Italy" solutions to our customers and helps us to move up the value chain. The Group maintains an order book of around three months' sales orders on hand.

The encouraging performance of our distribution division in 2016 was the result of the Group's determination in turning this higher margin business into our future growth engine. The Group acquired the business and certain assets of the distributor of STEPPER eyewear in South Africa in January 2017. Direct distribution of the Group's STEPPER eyewear is conducted by the Group's subsidiaries in the United Kingdom, France and South Africa and by independent distributors in other countries. The Group is actively pursuing investment opportunities to further strengthen and expand its brands portfolio and distribution network.

### **Margin pressure**

Increase in labour and other operating costs in Mainland China will continue to put pressure on the margins of the Group. The new production facility in Pingdi Town of Shenzhen City is well-equipped with modern technology and the management is implementing various projects to improve its operational efficiency. The Group will continue its strategies of diversification into higher margin business such as our distribution business and cooperation with Trenti. However, the management believes that the above measures can only alleviate part of the cost pressure.

# Chairman's Statement

## Financial discipline

The Group enters into a new chapter after the completion of its factory relocation in 2016. Despite substantial capital investments made in the last three years, the Group still maintains a strong and liquid financial position and continues to invest in our core businesses while adhering to our prudent financial discipline.

## DIVIDENDS

The Board does not recommend the payment of a final dividend (2015: nil), but has resolved to recommend a second special dividend of 25.0 HK cents (2015: 3.8 HK cents) per share for the year ended 31st December, 2016. Subject to the approval of shareholders at the forthcoming annual general meeting of the Company to be held on 25th May, 2017 (the "AGM"), the second special dividend will be payable on or about 15th June, 2017 to shareholders whose names appear on the register of members of the Company on 2nd June, 2017.

## CLOSURE OF REGISTER OF MEMBERS

For the purposes of determining shareholders' eligibility to attend and vote at the AGM, and entitlement to the second special dividend, the register of members of the Company will be closed. Details of such closures are set out below:

(i) For determining eligibility to attend and vote at the AGM:

Latest time to lodge transfer documents for registration	4:30 pm on 19th May, 2017
Closure of register of members	22nd May, 2017 to 25th May, 2017 (both dates inclusive)
Record date	25th May, 2017

(ii) For determining entitlement to the second special dividend:

Latest time to lodge transfer documents for registration	4:30 pm on 31st May, 2017
Closure of register of members	1st June, 2017 to 2nd June, 2017 (both dates inclusive)
Record date	2nd June, 2017

During the above closure periods, no transfer of shares will be effected. To be eligible to attend and vote at the AGM, and to qualify for the second special dividend, all properly completed transfer forms accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar, Tricor Secretaries Limited, at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than the aforementioned latest times.

# Chairman's Statement

## **ANNUAL GENERAL MEETING**

The notice of AGM will be despatched to the shareholders of the Company and will also be available on the Company's website at [www.artsgroup.com](http://www.artsgroup.com) and Hong Kong Exchanges and Clearing Limited's HKExnews website at [www.hkexnews.hk](http://www.hkexnews.hk) in mid-April 2017.

## **APPRECIATION**

On behalf of the board of directors, I would like to express my sincere appreciation and thanks to our shareholders, customers, suppliers, bankers and staff for their effort and commitment.

## CONVERTIBLE SECURITIES, OPTIONS, WARRANTS OR SIMILAR RIGHTS

The Company had no outstanding convertible securities, options, warrants or similar rights as at 31st December, 2016 and there has been no exercise of any other convertible securities, options, warrants or similar rights during the year.

## PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SHARES

Neither the Company nor any of its subsidiaries has purchased, sold or redeemed any of the Company's listed shares during the year.

## PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's Bye-laws, or the laws of Bermuda.

## SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the directors of the Company, the Company has maintained a sufficient public float as at the date of this report.

## ENVIRONMENTAL POLICIES AND PERFORMANCE

The Group is committed to the long-term sustainability of its businesses and the communities with which it engages. It puts great emphasis on environmental protection and sustainable development. The Group has actively promoted a material-saving and environmentally friendly working environment so as to protect the environment and reduce consumption.

## COMPLIANCE WITH RELEVANT LAWS AND REGULATIONS

So far as the Company is aware, the Group has complied with all relevant laws and regulations promulgated by the relevant regulatory bodies that have a significant impact on the Group.

## Directors' Report

### RELATIONSHIPS WITH EMPLOYEES, CUSTOMERS AND SUPPLIERS

The Group understands that employees are valuable assets and provides a harmonious, safe and professional working environment and a competitive remuneration package to its employees. Details of the emolument policy of the Group are disclosed under the heading "Emolument Policy" of this report.

The Group maintains a close partnership relationship with its customers and suppliers to fulfil its immediate and long-term goals. During the year under review, there was no material and significant dispute between the Group and its suppliers and/or customers.

### EMOLUMENT POLICY

The emolument policy of the employees of the Group is determined by the Remuneration Committee on the basis of their merit, qualifications and competence.

The emoluments of the executive directors of the Company were determined by the Remuneration Committee benchmarked against comparable companies in Hong Kong. The emoluments of the independent non-executive directors of the Company were recommended by the board of directors of the Company (the "Board") and approved by the shareholders at the annual general meeting.

Details of the retirement benefit schemes for all qualifying employees of the Group are set out in note 35 to the consolidated financial statements.

### CORPORATE GOVERNANCE

The Company's corporate governance principles and practices are set out in the Corporate Governance Report on pages 19 to 27 of this Annual Report.

### EVENTS AFTER THE REPORTING PERIOD

As at the date of this Report, the Board is not aware of any important events affecting the Group that have occurred since the end of the year under review.

### AUDITOR

A resolution will be submitted to the forthcoming annual general meeting of the Company to re-appoint Messrs. Deloitte Touche Tohmatsu as the auditor of the Company.

On behalf of the Board  
**Ng Hoi Ying, Michael**  
*Chairman*

## CORPORATE GOVERNANCE PRACTICES

The board of directors of the Company (the “Board”) has adopted the code provisions set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) as its own code on corporate governance practices. The Company has complied with all applicable code provisions set out in the CG Code throughout the year ended 31st December, 2016, except for deviation from code provision A.2.1 of the CG Code as disclosed under the paragraph “Chairman and Chief Executive Officer” below.

## DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the directors of the Company (the “Directors”). Having made specific enquiry of the Directors, all the Directors confirmed that they had complied with the required standards as set out in the Model Code throughout the year ended 31st December, 2016.

## BOARD OF DIRECTORS

The Board comprises six Directors, three of whom are executive Directors, namely Mr. Ng Hoi Ying, Michael, Mr. Ng Kim Ying and Mr. Lee Wai Chung, and three are independent non-executive Directors, namely Mr. Wong Chi Wai, Mr. Chung Hil Lan Eric and Mr. Lam Yu Lung.

During the year ended 31st December, 2016, five Board meetings and one general meeting were held. The attendance of each Director is set out as follows:

Directors	Attendance Record	
	Board meetings	General meeting
Ng Hoi Ying, Michael	5/5	1/1
Ng Kim Ying	5/5	1/1
Lee Wai Chung	5/5	1/1
Wong Chi Wai	5/5	1/1
Chung Hil Lan Eric	5/5	1/1
Lam Yu Lung	5/5	1/1

The Board is responsible for the formulation of the key business and strategic decisions of the Company and its subsidiaries (collectively the “Group”) and monitoring the performances of the management team. The Board has delegated the authority and responsibility for implementing its business strategies and managing the daily operations of the Group’s business to the management team.

Mr. Ng Hoi Ying, Michael, the Chairman of the Board and an executive director and Mr. Ng Kim Ying, an executive director, are brothers.

All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skill. The company secretary of the Company (the “Company Secretary”) also updates the Directors on the latest development of the Listing Rules and other applicable regulatory requirements.

## CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Ng Hoi Ying, Michael ("Mr. Ng") is the founder and chairman of the Group. The Company does not at present have any officer with the title "chief executive officer" and Mr. Ng has been carrying out the duties of both the chairman and chief executive officer since the establishment of the Group. The Board intends to maintain this structure in the future as it believes that this ensures efficient and effective formulation and implementation of business strategies without compromising the balance of power and authority between the Board and the management of the Company.

## APPOINTMENT AND RE-ELECTION OF DIRECTORS

According to Bye-law 87(1) of the bye-laws of the Company (the "Bye-laws"), at each annual general meeting of the Company, one-third of the Directors for the time being (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation. Bye-law 87(2) of the Bye-laws further provides that the Director(s) to retire by rotation shall be those who have been longest in office since their last re-election or appointment, and as between persons who became or were last re-elected Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot. According to Bye-law 86(2), any Director appointed by the Board to fill a casual vacancy shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election at that meeting.

Mr. Ng Hoi Ying, Michael and Mr. Lam Yu Lung who were re-elected as Directors in the annual general meeting of the Company held on 23rd May, 2014 will retire at the forthcoming annual general meeting and will offer themselves for re-election. Their proposed term of office shall not be more than three years and is subject to retirement by rotation in accordance with the Bye-laws.

# Corporate Governance Report

## APPOINTMENT AND RE-ELECTION OF DIRECTORS (continued)

Mr. Lee Wai Chung and Mr. Wong Chi Wai were re-elected as Directors in the annual general meeting of the Company held on 20th May, 2015 for a term of not more than three years and are subject to retirement by rotation in accordance with the Bye-laws. Mr. Chung Hil Lan Eric and Mr. Ng Kim Ying were re-elected as Directors in the annual general meeting of the Company held on 25th May, 2016 for a term of not more than three years and are subject to retirement by rotation in accordance with the Bye-laws.

## BOARD COMMITTEES

To enhance the effectiveness of the management of the Company, the Board has established the Audit Committee, the Remuneration Committee and the Nomination Committee to oversee various aspects of the Company's affairs.

## AUDIT COMMITTEE

An Audit Committee has been established by the Company since 1998 and currently comprises Mr. Wong Chi Wai (chairman of the Audit Committee), Mr. Chung Hil Lan Eric and Mr. Lam Yu Lung, all of whom are independent non-executive Directors. The duties of the Audit Committee include (but are not limited to) review of the interim and annual reports of the Group as well as various auditing, financial reporting, risk management and internal control matters with the management and/or external auditor of the Company. The Audit Committee has performed the above duties during the year ended 31st December, 2016. Three Audit Committee meetings were held during the year ended 31st December, 2016 and the attendance of each committee member is set out as follows:

<b>Directors</b>	<b>Attendance Record</b>
Wong Chi Wai	3/3
Chung Hil Lan Eric	3/3
Lam Yu Lung	3/3

## REMUNERATION COMMITTEE

A Remuneration Committee has been established by the Company since 2003 and currently comprises Mr. Chung Hil Lan Eric (chairman of the Remuneration Committee), Mr. Wong Chi Wai and Mr. Lam Yu Lung, all of whom are independent non-executive Directors.

One Remuneration Committee meeting was held during the year ended 31st December, 2016 and the attendance of each committee member is set out as follows:

<b>Directors</b>	<b>Attendance Record</b>
Chung Hil Lan Eric	1/1
Wong Chi Wai	1/1
Lam Yu Lung	1/1

# Corporate Governance Report

## REMUNERATION COMMITTEE (continued)

The major roles and functions of the Remuneration Committee are summarised as follows:

1. to determine the remuneration of the executive Directors and senior management; and
2. to review the remuneration policy of the Group.

During the year ended 31st December, 2016, the Remuneration Committee has, among other things, reviewed and determined the remuneration packages of the executive Directors and senior management with reference to their performance and the overall remuneration policy of the Group and approved the terms of executive Directors' service contracts. The remuneration of independent non-executive Directors was recommended by the Board and approved by the shareholders of the Company at the annual general meeting.

As at 31st December, 2016, the Group employed approximately 7,500 (31st December, 2015: 8,300) full time staff in Mainland China, Hong Kong and Europe. The Group remunerates its employees based on their performance, experience, qualifications and prevailing market salaries while performance bonuses are granted on a discretionary basis after considering individual performance and the operating results of the Group. Other employee benefits include insurance and medical coverage, subsidised educational and training programmes as well as provident fund schemes.

## NOMINATION COMMITTEE

A Nomination Committee has been established by the Company since 2012 and currently comprises Mr. Lam Yu Lung (chairman of the Nomination Committee), Mr. Wong Chi Wai and Mr. Chung Hil Lan Eric, all of whom are independent non-executive Directors. The duties of the Nomination Committee include (but are not limited to) reviewing the structure, size and composition of the Board, assessing the independence of the independent non-executive Directors, making recommendations to the Board on the appointment or re-appointment of Directors and determining the policy, nomination procedures and process and criteria for the nomination of Directors. The Nomination Committee has performed the above duties during the year ended 31st December, 2016.

The Nomination Committee has adopted a board diversity policy in 2013. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. With a view to achieving sustainable and balanced development, the Company views increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. Selection of candidates will be based on a range of perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

## NOMINATION COMMITTEE (continued)

One Nomination Committee meeting was held during the year ended 31st December, 2016 and the attendance of each committee member is set out as follows:

Directors	Attendance Record
Lam Yu Lung	1/1
Wong Chi Wai	1/1
Chung Hil Lan Eric	1/1

## CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for determining the corporate governance policy of the Company and performing the corporate governance duties as below:

1. to develop and review the Group's policies and practices on corporate governance and make recommendations;
2. to review and monitor the training and continuous professional development of Directors and senior management;
3. to review and monitor the Group's policies and practices on compliance with all legal and regulatory requirements (where applicable);
4. to develop, review and monitor the code of conduct and compliance manual (if any) applicable to the employees and directors of the Group; and
5. to review the Group's compliance with the code of corporate governance and disclosure requirements in the Corporate Governance Report.

## ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibility to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group. In preparing the accounts for the year ended 31st December, 2016, the Directors have adopted suitable accounting policies which are pertinent to the Group's operation and relevant to the financial statements, have made judgements and estimates that are prudent and reasonable, and have prepared the accounts on a going concern basis.

A statement by the auditor about its reporting responsibilities is included in the Independent Auditor's Report on pages 28 to 33 of this Annual Report.

# Corporate Governance Report

## AUDITOR'S REMUNERATION

During the year under review, the remuneration paid to the Company's auditor, Messrs. Deloitte Touche Tohmatsu, is set out as follows:

<b>Services rendered</b>	<b>Fees paid/payable</b> <i>HK\$'000</i>
Audit service	1,830
Non-audit services:	
Review on 2016 interim results	380
Tax compliance services	142
Tax consultancy services relating to the disposal of Group's interest in the Argent Urban Renewal Project	55
Review on 2016 preliminary annual results	13

## RISK MANAGEMENT AND INTERNAL CONTROL

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness on an ongoing basis. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable but not absolute assurance against material misstatement or loss. The Audit Committee assists the Board in evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and ensures that the Group establishes and maintains appropriate and effective risk management and internal control systems.

The risk management and internal control systems of the Group comprise a well-established organisational structure and comprehensive policies and standards. Areas of responsibilities of each business and operational unit are clearly defined to ensure effective check and balances.

The annual review of the effectiveness of the risk management and internal control systems of the Group by the Board during the year ended 31st December, 2016 has considered the following:

- the adequacy of resources, staff qualifications and experience, training programmes and budget of the Company's accounting and financial reporting functions as well as review of risk management and internal control systems;
- the changes in the nature and extent of significant risks during the year and the Group's ability to respond to changes in its business and external environment;
- the scope and quality of management's ongoing monitoring of risks and of the internal control systems;
- the extent and frequency of communication of monitoring results to the Board which enables it to assess control of the Group and the effectiveness of risk management;

# Corporate Governance Report

## RISK MANAGEMENT AND INTERNAL CONTROL (continued)

- significant control failings or weaknesses, if any, that have been identified during the year and the extent to which they have resulted in unforeseen outcomes or contingencies that have had, could have had, or may in the future have, a material impact on the Group's financial performance or condition; and
- the effectiveness of the Group's processes in relation to financial reporting and statutory and regulatory compliance.

The processes for assessing internal controls by the Audit Committee include:

- regular interviews with executive Directors in relation to key business operations, internal control and compliance issues, both financial and non-financial;
- review of significant issues arising from internal control review reports and the external audit report;
- private sessions with external consultants and auditors; and
- review of annual assessment and certification of internal controls from executive Directors, management of overseas subsidiaries and department heads in their areas of responsibility.

The Audit Committee has also reviewed papers prepared by executive Directors covering:

- periodic financial reports and accounts;
- preview of annual accounting and financial reporting issues;
- annual internal control review plan;
- whistle-blowing reports;
- report on the Group's internal control systems; and
- reporting of outstanding litigation and compliance issues.

The Board reviews the risk management and internal control systems of the Group annually. With the assistance of an external consultant, Royal Assets Advisory Limited and the Audit Committee, the Board assessed the effectiveness and adequacy of the Group's risk management and internal control systems which covered the process used to identify, evaluate and management significant risks, all material controls, including financial, operational and compliance controls during the year ended 31st December, 2016. No major issue had been raised but certain areas for improvement had been identified and appropriate measures had been taken.

# Corporate Governance Report

## **RISK MANAGEMENT AND INTERNAL CONTROL (continued)**

The Company currently does not have an internal audit function. The Board had been conducting the review of the effectiveness of the Group's risk management and/or internal control systems with the assistance of external consultants and the Audit Committee since 2006 as the Board believed that this was a cost-efficient and effective approach given the size and operational complexity of the Group. The Board will review the need for an internal audit function on an annual basis.

## **INSIDE INFORMATION**

The Group has in place a Policy on Disclosure of Inside Information (the "Policy") which sets out the procedures and internal controls for handling and dissemination of inside information in a timely manner in such a way so as not to place any person in a privileged dealing position and to allow time for the market to price the listed securities of the Company with the latest available information.

This Policy also provides guidelines to the directors, officers and all relevant employees of the Group to ensure proper safeguards exist to prevent the Company from breaching the statutory disclosure requirements. It also includes appropriate internal control and reporting systems to identify and assess potential inside information.

Dissemination of inside information of the Company shall be conducted by publishing the relevant information on the Company's website and Hong Kong Exchanges and Clearing Limited's HKExnews website, according to the requirements of the Listing Rules.

## **COMPANY SECRETARY**

Mr. Lee Wai Chung has been appointed as the Company Secretary since 1996. There was no non-compliance with requirements of professional qualifications and professional training under the Listing Rules during the year ended 31st December, 2016.

## **SHAREHOLDERS' RIGHTS**

### **Convening a Special General Meeting by Shareholders**

Pursuant to Bye-law 58, a special general meeting may be convened by the Board upon requisition by any shareholder holding not less than one-tenth of the issued share capital of the Company carrying the right to vote at any general meetings of the Company. The shareholder shall make a written requisition to the Board or the Company Secretary, specifying the shareholding information of the shareholder, his/her contact details and the proposal regarding any specified transaction/business and its supporting documents.

The Board shall arrange to hold such general meeting within two (2) months after the receipt of such written requisition. Pursuant to Bye-law 59, the Company shall serve requisite notice of the general meeting, including the time, place of meeting and particulars of resolutions to be considered at the meeting and the general nature of the business.

# Corporate Governance Report

## SHAREHOLDERS' RIGHTS (continued)

### Convening a Special General Meeting by Shareholders (continued)

If within twenty-one (21) days of the receipt of such written requisition, the Board fails to proceed to convene such special general meeting, the shareholder shall do so pursuant to the provisions of Section 74(3) of the Companies Act 1981 of Bermuda.

### Making Enquiry to the Board

Shareholders may send written enquiries, either by post, by facsimile or by email, together with his/her contact details, addressed to the head office of the Company at the following address or facsimile number or via email:

Arts Optical International Holdings Limited

Kowloon, Hong Kong

Facsimile number: (852) 2195 8928  
Email: [desmond@artsgroup.com](mailto:desmond@artsgroup.com)  
Attention: Company Secretary

All enquiries shall be collected by the Company Secretary who shall report to the executive Directors periodically. The executive Directors shall review the enquiries and assign different kinds of enquiries to the appropriate division head/manager for answering. After receiving the answers from the relevant division head/managers, the Company Secretary will collate the answers for the executive Directors' review and approval. The Company Secretary shall then be authorised by the executive Directors to reply to each enquiry in writing.

### Putting Forward Proposals at General Meetings

A shareholder shall make a written requisition to the Board or the Company Secretary at the head office address of the Company, specifying his/her shareholding information, contact details and the proposal he/she intends to put forward at general meeting regarding any specified transaction/business and its supporting documents.

## INVESTOR RELATIONS

### Constitutional Documents

There was no change to the Company's Memorandum of Association and Bye-laws during the year ended 31st December, 2016. A copy of the latest consolidated version of the Memorandum of Association and Bye-laws is posted on the websites of the Company and Hong Kong Exchanges and Clearing Limited.

### Shareholders' Communication Policy

The Company has adopted a Shareholders Communication Policy since 2012 with the objective of ensuring that the Company's shareholders are provided with ready, equal and timely access to balanced and user-friendly information about the Company in order to enable the shareholders to exercise their rights in an informed manner, and to allow the shareholders and the investment community to engage actively with the Company.

### Opinion

We have audited the consolidated financial statements of Arts Optical International Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as “the Group”) set out on pages 34 to 116, which comprise the consolidated statement of financial position as at 31st December, 2016, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31st December, 2016, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the applicable disclosure requirements of Hong Kong Companies Ordinance.

### Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (“the Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Other Information

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

# Independent Auditor's Report

## Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements (continued)

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

# Independent Auditor's Report

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Ka-Lai Man.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 1. GENERAL

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on the Stock Exchange of Hong Kong Limited. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report.

The Company is an investment holding company. The principal activities of the Company and its principal subsidiaries (the “Group”) are set out in note 39.

The consolidated financial statements are presented in Hong Kong dollars, which is different from the functional currency of the Company, which is United States dollars, as directors of the Company (the “Directors”) consider that Hong Kong dollars is the most appropriate presentation currency in view of its place of listing.

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

### *Amendments to HKFRSs that are mandatorily effective for the current year*

The Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) for the first time in the current year:

Amendments to HKAS 1	Disclosure Initiative
Amendments to HKAS 16 and HKAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation
Amendments to HKAS 16 and HKAS 41	Agriculture: Bearer Plants
Amendments to HKAS 27	Equity Method in Separate Financial Statements
Amendments to HKFRSs	Annual Improvements to HKFRSs 2012-2014 Cycle
Amendments to HKFRS 10, HKFRS 12 and HKAS 28	Investment Entities: Applying the Consolidation Exception
Amendments to HKFRS 11	Accounting for Acquisitions of Interests in Joint Operations

The application of the amendments to HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### *New and amendments to HKFRSs in issue but not yet effective*

The Group has not early applied the following new and amendments to HKFRSs that have been issued but are not yet effective:

HKFRS 9	Financial Instruments <sup>1</sup>
HKFRS 15	Revenue from Contracts with Customers <sup>1</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1st January, 2018

<sup>2</sup> Effective for annual periods beginning on or after 1st January, 2019

<sup>3</sup> Effective for annual periods beginning on or after a date to be determined

<sup>4</sup> Effective for annual periods beginning on or after 1st January, 2017

### **HKFRS 9 Financial Instruments**

HKFRS 9 introduces new requirements for the classification and measurement of financial assets, financial liabilities, general hedge accounting and impairment requirements for financial assets.

Key requirements of HKFRS 9 which are relevant to the Group are:

- all recognised financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income (“FVTOCI”). All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### HKFRS 9 Financial Instruments (continued)

- in relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39 *Financial Instruments: Recognition and Measurement*. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The Directors are in the process of assessing the impact on the application of HKFRS 9. However, it is not practicable to provide a reasonable estimate of that effect of HKFRS 9 until the Group performs a detailed review.

### HKFRS 15 Revenue from Contracts with Customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 *Revenue*, HKAS 11 *Construction Contracts* and the related interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In 2016, the HKICPA issued Clarifications to HKFRS 15 in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

The Directors anticipate that the application of HKFRS 15 in the future may result in more disclosures. However, the Directors do not anticipate that the application of HKFRS 15 will have a material impact on the timing and amounts of revenue recognised in the respective reporting periods.

## 2. APPLICATION OF NEW AND AMENDMENTS TO HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

### HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 *Leases* and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-of-use asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets.

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use and those classified as investment properties while other operating lease payments are presented as operating cash flows. Under the HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows.

Under HKAS 17, the Group has already recognised an asset and a related finance lease liability for finance lease arrangement and prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

In contrast to lessee accounting, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

As at 31st December, 2016, the Group has non-cancellable operating lease commitments of HK\$907,000 as disclosed in note 36. A preliminary assessment indicates that these arrangements will meet the definition of a lease under HKFRS 16, and hence the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases upon the application of HKFRS 16. In addition, the application of new requirements may result changes in measurement, presentation and disclosure as indicated above. However, it is not practicable to provide a reasonable estimate of the financial effect until the Directors complete a detailed review.

Except those mentioned above, the Directors anticipate that the application of other new and amendments to HKFRSs will have no material impact on the consolidated financial statements.

## 3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (“Listing Rules”) and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for investment properties and derivative financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2 *Share-based Payment*, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 *Inventories* or value in use in HKAS 36 *Impairment on Assets*.

A fair value measurement of a non-financial asset takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The principal accounting policies are set out below.

### **Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Basis of consolidation (continued)

#### *Changes in the Group's ownership interests in existing subsidiaries*

Changes in the Group's ownership interests in existing subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity including reserves and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted after re-attribution of the relevant equity component, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

### Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 at the acquisition date (see the accounting policy below); and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.

# Notes to the Consolidated Financial Statements

*For the year ended 31st December, 2016*

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Business combinations (continued)**

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after reassessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

### **Goodwill**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or groups of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit (or groups of cash-generating units).

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described below.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is or the portion so classified is accounted for in accordance with HKFRS 5. Any retained portion of an investment in an associate or a joint venture that has not been classified as held for sale shall be accounted for using the equity method. The financial statements of associates and joint ventures used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Investments in associates and joint ventures (continued)

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When the Group ceases to have significant influence over an associate or joint control over a joint venture, it is accounted for as a disposal of the entire interest in the investee with a resulting gain or loss being recognised in profit or loss. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset within the scope of HKAS 39, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition. The difference between the carrying amount of the associate or joint venture and the fair value of any retained interest and any proceeds from disposing the relevant interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established.

The Group's accounting policy for recognition of revenue from operating leases is described in the accounting policy for leasing below.

### Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including any directly and indirectly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are classified and accounted for as investment properties and are measured using the fair value model. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Property, plant and equipment

Property, plant and equipment including buildings, leasehold land (classified as finance leases) held for use in the production or supply of goods or services, or for administrative purposes (other than buildings under construction as described below) are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets other than properties under construction less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### *The Group as lessor*

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset. Other than investment properties measured under fair value model, such costs are recognised as an expense on a straight-line basis over the lease term.

#### *The Group as lessee*

Operating lease payments, including the cost of acquiring land held under operating leases, are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Leasing (continued)

#### *Leasehold land and building*

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease.

### Intangible assets

#### *Intangible assets acquired separately*

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less any subsequent accumulated impairment losses (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

#### *Intangible assets acquired in a business combination*

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination with finite useful lives are reported at cost less accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets that are acquired separately (see the accounting policy in respect of impairment losses on tangible and intangible assets below).

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Impairment losses on tangible and intangible assets other than goodwill (see the accounting policy in respect of goodwill above)**

At the end of the reporting period, the Group reviews the carrying amounts of its tangible and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that they may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

### **Financial instruments**

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### Financial assets

Financial assets are classified into financial assets at fair value through profit or loss (“FVTPL”) and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

#### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

#### *Financial assets at FVTPL*

Financial assets are classified as at FVTPL when the financial asset is held for trading.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets and is included in the other gains and losses line item. Fair value is determined in the manner described in note 34.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### Financial assets (continued)

##### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including debtors, loan receivable, other receivables, loan to a joint venture, short-term bank deposits and bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment (see accounting policy on impairment of financial assets below).

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

##### *Impairment of financial assets*

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the credit period of 30 days to 120 days, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of debtors, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### Financial assets (continued)

##### *Impairment of financial assets (continued)*

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

#### Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### *Equity instruments*

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

##### *Effective interest method*

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Interest expense is recognised on an effective interest basis.

##### *Financial liabilities at amortised cost*

Financial liabilities (including creditors and accrued charges, and bank borrowings) are subsequently measured at amortised cost, using the effective interest method.

##### *Derivative financial instruments*

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately.

# Notes to the Consolidated Financial Statements

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Financial instruments (continued)

#### Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before tax" as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using the tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

# Notes to the Consolidated Financial Statements

For the year ended 31st December, 2016

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Taxation (continued)

Deferred tax liabilities are recognised for taxable temporary difference associated with investments in subsidiaries and an associate, and interest in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise, except for exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on disposal or partial disposal of the Group's interests.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve (attributed to non-controlling interests as appropriate).

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Goodwill and fair value adjustments on identifiable assets acquired arising on an acquisition of a foreign operation are treated as assets and liabilities of that foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

## 3. SIGNIFICANT ACCOUNTING POLICIES (continued)

### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### Retirement benefit costs

Payments to defined contribution retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

## 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the Directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

### Critical judgements in applying accounting policies

The following are the critical judgments, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

### Deferred taxation on investment properties

For the purposes of measuring deferred tax arising from investment properties that are measured using the fair value model, the Directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in determining the Group's deferred taxation on investment properties, the Directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. The Group has not recognised any deferred taxes on changes in fair value of investment properties as the Group is not subject to any income taxes on the fair value changes of the investment properties on disposal.

## 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

### Valuation of investment properties

Investment properties are carried in the consolidated statement of financial position at 31st December, 2016 at their fair value, details of which are disclosed in note 16. The fair value of the investment properties was determined by reference to valuations conducted on these properties by an independent firm of qualified professional valuers using income capitalisation approach. Property valuation techniques involve certain key inputs, such as reversion yield, monthly market rent and contracted monthly rent. Favourable or unfavourable changes to these assumptions may result in changes in the fair value of the Group's investment properties and corresponding adjustments to the changes in fair value reported in the consolidated statement of profit or loss and other comprehensive income and the carrying amount of these properties included in the consolidated statement of financial position. The carrying amount of Group's investments properties at 31st December, 2016 is HK\$141,480,000 (2015: HK\$140,850,000).

### Estimated impairment of intangible assets

Determining whether intangible assets (i.e. trademark and customer relationships) are impaired requires an estimation of the recoverable amount of these intangible assets. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the intangible assets and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2016, the carrying amount of the Group's intangible assets is HK\$13,128,000 (2015: HK\$16,732,000). Details of the recoverable amount calculation are disclosed in note 19.

### Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the recoverable amount of the cash-generating units to which goodwill has been allocated which is the higher of the value in use or fair value less costs of disposal. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating units and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, or change in facts and circumstances which results in downward revision of future cash, a material impairment loss may arise. As at 31st December, 2016, the carrying amount of goodwill is HK\$7,455,000 (2015: HK\$8,979,000). Details of the recoverable amount calculation are disclosed in note 20.

# Notes to the Consolidated Financial Statements

## 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

### Key sources of estimation uncertainty (continued)

#### Estimated impairment of trade debtors

The management has properly designed and implemented on the impairment assessment of trade debtors by checking and reviewing the ageing of the trade debtors, historical settlement and the subsequent settlement. When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition, where applicable). Where the actual future cash flows are less than expected, or being revised downward due to changes in the facts and circumstances, a material impairment loss may arise. As at 31st December, 2016, the carrying amount of trade debtors is HK\$348,087,000 net of allowance for doubtful debts of HK\$43,547,000 (2015: HK\$328,912,000 net of allowance for doubtful debts of HK\$40,532,000). Details of which are disclosed in note 26.

#### Determination of net realisable value of inventories

The cost of inventories is written down to net realisable value when the cost of inventories is not recoverable. The cost of inventories may not be recoverable if those inventories are damaged, if they have become wholly or partially obsolete, or if their selling prices have declined. Also, the cost of inventories may not be recoverable if the estimated costs to be incurred to make the sale have increased. When the net realisable value of an item of inventory is less than the carrying amount, the excess is written off immediately in the consolidated statement of profit or loss and other comprehensive income. As at 31st December, 2016, the carrying amount of inventories is HK\$165,470,000 net of allowance for inventories of HK\$66,102,000 (2015: HK\$191,805,000 net of allowance for inventories of HK\$65,600,000).

#### Income taxes

As at 31st December, 2016, no deferred tax asset has been recognised on the tax losses of HK\$387,483,000 (2015: HK\$146,186,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the actual future profits generated are less or more than expected, or change in facts and circumstances which result in revision of future taxable profits estimation, a material reversal or further recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a reversal or further recognition takes place.

## 5. SEGMENT INFORMATION

Information reported to the executive directors, being the chief operating decision maker, for the purposes of resource allocation and assessment of segment performance focuses on geographical markets, based on the location of customers. Thus, the Group is currently organised into four segments which are sales of optical products to customers located in Europe, the United States, Asia and other regions.

### Segment revenues and results

The following is an analysis of the Group's revenue and results by reportable and operating segment:

*For the year ended 31st December, 2016*

The accounting policies of the reportable and operating segments are the same as the Group's accounting policies described in note 3. Segment profit or loss represents the profit earned by or loss from each segment without allocation of central administration costs, directors' emoluments, economic compensation, property rental income, increase in fair values of investment properties, finance costs, net gain or expenses relating to the disposal of land and premises, share of profit of an associate, share of profit or loss of a joint venture as well as impairment losses of investment in a joint venture and loan receivable. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and performance assessment.

### Segment assets and liabilities

Total segment assets and liabilities are not disclosed as they are not regularly reviewed by the chief operating decision maker.

## 8. NET GAIN (EXPENSE) RELATING TO THE DISPOSAL OF LAND AND PREMISES

Pursuant to the relocation agreement, supplemental agreement and second supplemental agreement to the relocation agreement (collectively the “Agreements”), details of which are disclosed in the Company’s announcements dated 19th August, 2014, 8th October, 2014, 13th October, 2015, 3rd May, 2016, 30th December, 2016 and circular dated 19th September, 2014, a wholly-owned subsidiary of the Company (“Argent”) has agreed to dispose of its interest in Argent Urban Renewal Project (the “Disposal”) for a consideration of RMB1,579,700,000 (equivalent to approximately HK\$1,767,052,000) subject to the fulfillment of the condition precedent as set out in the relocation agreement.

During the year ended 31st December, 2016, all parties to the Agreements have fulfilled their respective remaining responsibilities under the Agreements. Accordingly, the Disposal is considered complete and a net gain on the Disposal amounting to HK\$1,218,783,000 was recognised.

The following is an analysis of the net gain on the Disposal recognised during the year ended 31st December, 2016:

	<i>HK\$'000</i>
Consideration received	
– during the year ended 31st December, 2014	645,432
– during the year ended 31st December, 2016	1,121,620

## 16. INVESTMENT PROPERTIES

	<i>HK\$'000</i>
FAIR VALUE	
At 1st January, 2015	130,250
Increase in fair values recognised in profit or loss	10,600
At 31st December, 2015	140,850
Increase in fair values recognised in profit or loss	630
At 31st December, 2016	141,480

All of the Group's property interests held under operating leases to earn rentals are measured using the fair value model and are classified and accounted for as investment properties.

In determining the fair value of investment properties, it is the Group's policy to engage an independent firm of qualified professional valuers to perform the valuation. The Group works closely with the qualified external valuers to establish the appropriate valuation technique and key inputs to the model.

On 31st December, 2016 and 31st December, 2015, independent valuations were undertaken by Vigers Appraisal & Consulting Limited ("Vigers"), an independent firm of professional valuers not connected to the Group which has appropriate professional qualifications and recent experience in the valuation of similar properties in the neighbourhood.

The valuations have been arrived at using income capitalisation approach. The valuations have been arrived by capitalising the market rentals of all lettable units of the properties by reference to the rentals achieved in the lettable units as well as other lettings of similar properties in the neighbourhood. The capitalisation rate adopted is made by reference to the yield rates observed by the valuer for the similar properties in the locality and adjusted based on the valuers' knowledge of the factors specific to the respective properties. There has been no change from the valuation technique used in the prior year.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The following table gives information about how the fair values of the Group's investment properties as at 31st December, 2016 and 31st December, 2015 are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

## 16. INVESTMENT PROPERTIES (continued)

Investment properties held by the Group in the consolidated statement of financial position	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Sensitivity
Investment properties in Hong Kong	Level 3	Income capitalisation approach		
		The key inputs are		
		(1) Reversion yield	Reversion yield, taking into account of the capitalisation of rental income potential, nature of the property and prevailing market condition, ranging from 3.1% to 3.5% (2015: 3.0% to 3.5%).	A slight increase in the reversion yield used would result in a significant decrease in the fair value measurement of the investment properties, and vice versa.
		(2) Monthly market rent	Monthly market rent, taking into account of time, location and individual factors such as frontage and size, between the comparable and the property, ranging from HK\$21.0 to HK\$26.86 (2015: HK\$21.0 to HK\$25.4) per square foot per month on lettable area basis for the office portion of the property and ranging from HK\$2,800 to HK\$3,200 (2015: HK\$2,800) per car parking space per month for the car parking space portion of the property.	A slight increase in the monthly market rent used would result in a significant increase in the fair value measurement of the investment properties, and vice versa.

The fair values of all investment properties at 31st December, 2016 and 31st December, 2015 were measured using valuation techniques with significant unobservable inputs and hence were classified as Level 3 of the fair value hierarchy. There were no transfer into or out of Level 3 during the year.

## 19. INTANGIBLE ASSETS AND IMPAIRMENT TESTING ON INTANGIBLE ASSETS (continued)

The following useful lives are used in the calculation of amortisation:

Trademark	indefinite
Customer relationships	straight-line basis over 10 years

The customer relationships have finite useful lives and are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method over the expected lives of the customer relationships, which are determined to be 10 years.

Trademark purchased from an independent third party in 2006 is considered by the management of the Group as having an indefinite useful life because it is expected to contribute to net cash inflows indefinitely. The trademark will not be amortised until its useful life is determined to be finite. Instead it will be tested for impairment annually and whenever there is an indication that it may be impaired. Particulars of the impairment testing are disclosed below.

The recoverable amount of the trademark has been determined on a value in use calculation. The recoverable amount is based on certain key assumptions. The value in use calculation uses cash flow projections based on latest financial budgets approved by the Company's management covering a period of 5 years, and at a discount rate of 3% (2015: 3%). The cash flow projections are extrapolated using a 0% (2015: 0%) growth rate. Cash flow projections during the budget period for the trademark are based on the expected gross margins during the budget period. Budgeted gross margins have been determined based on past performance and management's expectations for the market development.

Based on the discounted cash flow projections, the recoverable amount of the trademark is estimated to be less than its carrying amount. Accordingly, the management of the Group determined that an impairment loss on trademark of HK\$820,000 (2015: nil) is recognised in profit or loss for the year ended 31st December, 2016.

Goodwill arising from the acquisition of a non wholly-owned subsidiary which is engaged in trading in prescription frames and sunglasses. The Group identifies the business operated by the non wholly-owned subsidiary as the single cash-generating unit (“CGU”). Particulars of impairment testing on goodwill are disclosed below.

The recoverable amount of the CGU has been determined on a value in use calculation. The recoverable amount is based on certain key assumptions. The value in use calculation uses cash flow projections based on latest financial budgets approved by the Company’s management covering a period of 5 years, and at a discount rate of 14% (2015: 14%). The cash flow projections are extrapolated using a 0% (2015: 0%) growth rate. Other key assumptions for the value in use calculations related to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the CGU’s past performance and management’s expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGU to exceed the aggregated recoverable amount of CGU.

The goodwill was tested for impairment at the end of each reporting period by comparing the carrying amount of the CGU with the recoverable amount of the CGU. The management of the Group determined that there is no impairment loss for both years.

Goodwill arising from the acquisition of an associate which is engaged in manufacture of and trading in prescription frames and sunglasses. The Group identifies the business operated as the single CGU. Particulars of impairment testing on goodwill are disclosed below.

The recoverable amount of the CGU has been determined on a value in use calculation. The recoverable amount is based on certain key assumptions. The value in use calculation uses cash flow projections based on latest financial budgets approved by the Company's management covering a period of 5 years, and at a discount rate of 15% (2015: 15%). The cash flow projections are extrapolated using a 0% (2015: 0%) growth rate. Other key assumptions for the value in use calculations related to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the CGU's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGU to exceed the aggregated recoverable amount of CGU.

The goodwill was tested for impairment at the end of each reporting period by comparing the carrying amount of the CGU with the recoverable amount of the CGU. The management of the Group determined that there is no impairment loss for both years.

The Group's trade debtor balance and trade creditor balance due from/to the associate are disclosed in notes 26 and 29 respectively.

Details of the associate at the end of the reporting period are as follow:

At 31st December, 2016, in view of the operating loss resulted from the joint venture, its financial status and prevailing market conditions, the management of the Group has performed a review on impairment on the carrying value of its interest in the joint venture by comparing its recoverable amount with its carrying value. The joint venture reported net loss and a significant decline in revenue for the year ended 31st December, 2016 which constitute impairment indicators.

The recoverable amount of the joint venture has been determined on the basis of value in use calculations. The recoverable amount is based on certain key assumptions. In determining the value in use of the interest in the joint venture, the management estimated the present value of the estimated future cash flow comprising expected dividend income from the joint venture and expected ultimate disposal, by using a discount rate to discount the cash flow projections to net present value. The future cash flow from the expected ultimate disposal is calculated with reference to the expected return from the joint venture. The management reviewed the recoverable amount of the joint venture after take into account of the weak prevailing market conditions and the continuing downward trend of the joint venture's profitability. The management estimated that there is a significant decline in the present value of the estimated future cash flow comprising expected dividend income from the joint venture.

Based on the assessment, the recoverable amount of the Group's interest in the joint venture is estimated to be less than its carrying amount. Accordingly, the management of the Group determined that a full impairment loss of HK\$4,666,000 is recognised in profit or loss for the year ended 31st December, 2016.

The loan receivable is granted to an independent corporate customer and is denominated in United States dollars. The amount carries fixed interest rate at 5% per annum and is repayable through 24 quarterly instalments of US\$72,500 (equivalent to approximately HK\$562,000) commencing in October 2016 with a balance payment of US\$17,500 (equivalent to approximately HK\$136,000) in October 2022. The amount is secured by all assets held by the corporate customer. The Group is not permitted to sell or repledge the collateral in the absence of default by the borrower.

The Directors assess the collectability on the carrying value of the loan receivable at the end of each reporting period. Based on the assessment, the recoverable amount of the loan receivable is estimated to be less than its carrying amount with reference to the repayments history and the net realisable value of all assets of this corporate customer. Accordingly, the management of the Group determined that an impairment loss of US\$162,500 (equivalent to approximately HK\$1,260,000) (2015: US\$1,595,000 (equivalent to approximately HK\$12,363,000)), is recognised in profit or loss for the year ended 31st December, 2016.

## 24. OTHER RECEIVABLES (continued)

On 1st January, 2015, Stepper HK also entered into four sale and purchase agreements with four members of the management team (“Stepper France Team”) of Stepper France, a non wholly-owned subsidiary of the Company, pursuant to which (i) Stepper HK would sell and the Stepper France Team would purchase a total of 20% of the issued share capital of Stepper France for an aggregate consideration of €10,000 (equivalent to approximately HK\$94,000) (the “Stepper France Share Price”) and (ii) Stepper HK would assign its interest in its loan to Stepper France with a face value of €240,000 (equivalent to approximately HK\$2,263,000) to the Stepper France Team for an aggregate consideration of €240,000 (equivalent to approximately HK\$2,263,000) (the “Stepper France Loan Price”). The Stepper France Share Price and the Stepper France Loan Price were determined by the parties at arm’s length negotiations with reference to the nominal value of the share capital of Stepper France transferred and face value of the shareholder’s loan assigned respectively. The purpose of the sale of the 20% interest in Stepper France and assignment of shareholder’s loan was to motivate the Stepper France Team towards higher level of performance of Stepper France.

On 31st July, 2016, Stepper HK entered into a sale and purchase agreement with a member of Stepper UK Team, Stepper HK would buy back the 15% of the issued share capital of Stepper UK which was sold to this member on 1st January, 2015. The reason of the buy back was the resignation of this member from the Stepper UK Team. This member fully repaid the outstanding consideration of £344,760 (equivalent to approximately HK\$3,527,000) of the sale and purchase agreement dated 1st January, 2015 on 5th August, 2016.

On 31st July, 2016, Stepper HK also entered into a sale and purchase agreement with a member of Stepper France Team, (i) Stepper HK would buy back the 3% of the issued share capital of Stepper France which was sold to this member on 1st January, 2015 and (ii) this member would assign the interest in loan to Stepper France with a face value of €30,000 to Stepper HK which was assigned to this member on 1st January, 2015. The reason of the buy back and assignment was the resignation of this member from the Stepper France Team. This member fully repaid the outstanding consideration of €30,000 (equivalent to approximately HK\$258,000) of the sale and purchase agreement dated 1st January, 2015 on 5th August, 2016.

The other receivables are the consideration receivables from the Stepper UK Team and the Stepper France Team. The considerations are repayable by instalments and will be fully repaid in December 2019. Repayments have been made in accordance with the sale and purchase agreements. The Group does not hold any collateral over these balances.

At the end of the reporting period, the interest-free other receivables are carried at amortised cost, which represents the difference between the carrying amount and the present value of the estimated future cash flows discounted at an effective interest rate of 3.70% (2015: 3.70%) and 4.46% (2015: 4.46%) for Stepper UK Price and Stepper France Loan Price, respectively.

The Group has a policy of allowing a credit period of 30 days to 120 days to its trade debtors. No interest is charged on the trade debtors. The Group has provided fully for all receivables past due beyond 360 days because historical experience is such that receivables that are past due beyond 360 days are generally not recoverable. Trade debtors past due between 60 days and 360 days are provided for based on estimated irrecoverable amounts from the sale of goods, determined by reference to past default experience and subsequent settlement.

Before accepting any new customer, the Group carries out research on the creditability of new customer and assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed at least once a year. Trade debtors that are neither past due nor impaired have good track records with the Group.

In determining the recoverability of a trade debtor, the Group considers any change in the credit quality of the trade debtor from the date credit was initially granted up to the end of each reporting period. The Directors believe that there is no further credit provision required in excess of the allowance for doubtful debts.

Included in the allowance for doubtful debts were individually impaired trade receivables with an aggregate balance of HK\$43,547,000 (2015: HK\$40,532,000) which are in severe financial difficulties and therefore the Directors considered that they are irrecoverable.

## 32. DEFERRED TAX (LIABILITIES) ASSETS (continued)

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	<b>2016</b> <i>HK\$'000</i>	2015 <i>HK\$'000</i>
Deferred tax assets	<b>186</b>	229
Deferred tax liabilities	<b>(10,988)</b>	(12,106)
	<b>(10,802)</b>	(11,877)

At 31st December, 2016, the Group has unused tax losses of HK\$381,910,000 (2015: HK\$146,186,000) available to offset against future profits. No deferred tax asset has been recognised in respect of such losses due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of HK\$52,607,000 (2015: HK\$54,602,000) that will expire from 2017 to 2021 (2015: expire from 2016 to 2020). Other losses may be carried forward indefinitely.

At the end of the reporting period, the Group has deductible temporary differences of HK\$40,761,000 (2015: HK\$41,916,000). No deferred tax asset has been recognised in relation to such deductible temporary difference as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

## 33. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits, as disclosed in the consolidated statement of changes in equity.

The Directors review the capital structure periodically. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the management of the Group, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt, if necessary.

## 34. FINANCIAL INSTRUMENTS

### (a) Categories of financial instruments

	2016 <i>HK\$'000</i>	2015 <i>HK\$'000</i>
<b>Financial assets</b>		
Loans and receivables (including cash and cash equivalents)	982,261	560,689
Fair value through profit or loss – Derivative financial instruments	128	–
<b>Financial liabilities</b>		
Amortised cost	624,880	286,791

### (b) Financial risk management objectives and policies

The Group's major financial instruments include debtors, loan receivable, other receivables, loan to a joint venture, derivative financial instruments, short-term bank deposits, bank balances and cash, creditors and accrued charges, and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### Market risk

There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risks.

#### (i) Currency risk

Several subsidiaries of the Group have foreign currency sales and purchases, which expose the Group to foreign currency risk. The Group also has other receivables, trade and other debtors, derivative financial instruments, short-term bank deposits, bank balances and cash, trade and other creditors as well as bank borrowings denominated in foreign currency balances. Details of foreign currency balances are detailed in notes 24, 26, 27, 28, 29 and 30.

## 34. FINANCIAL INSTRUMENTS (continued)

### (b) Financial risk management objectives and policies (continued)

#### Market risk (continued)

##### (i) Currency risk (continued)

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Assets		Liabilities	
	2016 HK\$'000	2015 HK\$'000	2016 HK\$'000	2015 HK\$'000
Hong Kong dollars	8,749	30,334	237,142	79,365
Renminbi	3,938	4,532	12,289	12,797
Euro	2,369	2,887	5,206	5,027
United States dollars	41,947	27,690	2,600	4,234
Japanese Yen	422	2,148	1,412	1,860
British Pound Sterling	1,390	6,107	–	–

#### Sensitivity analysis

The Group is mainly exposed to the effects of fluctuation in currency of Renminbi, Euro, Japanese Yen and British Pound Sterling. The Hong Kong dollars (“HKD”) and United States dollars (“USD”) denominated monetary items arose from group entities with functional currency of USD and HKD respectively. As HKD is pegged to USD, the Directors consider that the foreign currency exposure is limited.

The following table details the Group's sensitivity to a 5% (2015: 5%) increase and decrease in the functional currencies of the relevant group entities against the relevant foreign currencies. 5% (2015: 5%) represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items (other than those denominated in HKD and USD) and adjusts their translation at the period end for a 5% (2015: 5%) change in foreign currency rates. A positive number below indicates an increase in post-tax profit (2015: a decrease in post-tax loss) where the functional currencies of the relevant group entities strengthen against the relevant foreign currencies. For a 5% (2015: 5%) weakening of the functional currencies of the relevant group entities, there would be an equal and opposite impact on the post-tax profit (2015: post-tax loss), and the balances below would be negative.

#### Market risk (continued)

#### (i) Currency risk (continued)

#### Sensitivity analysis (continued)

	Increase (decrease) in profit for the year (post-tax)	Decrease (increase) in loss for the year (post-tax)
	2016 <i>HK\$'000</i>	2015 <i>HK\$'000</i>
Renminbi	416	492
Euro	141	127
Japanese Yen	49	(17)
British Pound Sterling	(69)	(363)

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

#### (ii) Interest rate risk

The Group's cash flow interest rate risk relates primarily to variable-rate short-term bank deposits, bank balances and borrowings (see note 30 for details of these borrowings). It is the Group's policy to keep its borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Prime Rate and HIBOR arising from the Group's borrowings.

## 34. FINANCIAL INSTRUMENTS (continued)

### (b) Financial risk management objectives and policies (continued)

#### Market risk (continued)

##### (ii) Interest rate risk (continued)

###### *Sensitivity analysis*

Sensitivity analysis on bank balances is not presented as the management considers that the Group's exposure to interest rate fluctuation is insignificant.

The sensitivity analysis below has been determined based on the exposure to interest rates for short-term bank deposits placed and borrowings outstanding at the end of the reporting period. The analysis is prepared assuming the short-term bank deposits placed and borrowings outstanding at the end of the reporting period were placed and outstanding for the whole year. A 50 basis point (2015: 50 basis point) represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points (2015: 50 basis points) higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31st December, 2016 would increase/decrease by HK\$1,686,000 (2015: post-tax loss for the year would increase/decrease by HK\$228,000). This is mainly attributable to the Group's exposure to interest rates on its short-term bank deposits placed and borrowings outstanding.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk inherent in the financial assets and financial liabilities as the year end exposure does not reflect the exposure during the year.

#### Credit risk

As at 31st December, 2016, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts, taking into account any change in the credit quality of the trade debtors from the date credit was initially granted up to the reporting date. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

## 34. FINANCIAL INSTRUMENTS (continued)

### (b) Financial risk management objectives and policies (continued)

#### Credit risk (continued)

The credit risk for bank deposits is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Other than concentration of credit risk on the loan receivable, other receivables and liquid funds which are deposited with several banks with high credit ratings, the Group has concentration of credit risks with exposure limited to certain customers. At the end of the reporting period, five customers of the Group accounted for about 55% (2015: 59%) of the Group's trade debtors. These five customers are leading global players of the eyewear industry and distribute eyewear products under their portfolio of fashion brands through their global distribution and/or retailing networks. The Group considers that the concentration of risk is low as these five customers have good reputation and payment records. Apart from delegating a team for determining the credit limits, credit approval and other monitoring procedures on customers, the Group had also explored new markets and new customers in order to minimise the concentration of credit risk.

#### Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management also monitors the utilisation of bank borrowings.

As at 31st December, 2016, the Group has available unutilised overdrafts and short and medium term bank loan facilities of approximately HK\$3,000,000 (2015: HK\$4,600,000) and HK\$70,920,000 (2015: HK\$111,246,000) respectively. The facilities expiring within one year are annual facilities subject to review at various dates during 2017.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

		<b>281,817</b>	<b>4,974</b>	<b>286,791</b>	<b>286,791</b>

Bank borrowings with a repayment on demand clause are included in the “on demand or less than 3 months” time band in the above maturity analysis. As at 31st December, 2016 and 31st December, 2015, the aggregate undiscounted principal amounts of these bank borrowings amounted to HK\$218,857,000 and HK\$68,693,000 respectively. Taking into account the Group’s financial position, the Directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The Directors believe that these outstanding bank borrowings at 31st December, 2016 will be fully repaid by June 2024 in accordance with the scheduled repayment dates set out in the loan agreements, details of which are set out in the table below:

The amounts included above for variable interest rate instruments for non-derivative financial liabilities are subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

### (c) Fair value measurements of financial instruments

Some of the Group's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and key input(s) used).

Financial assets	Fair values as at		Fair value hierarchy	Valuation technique(s) and key input(s)
	31.12.2016 HK\$'000	31.12.2015 HK\$'000		
Foreign currency forward contracts classified as financial assets at FVTPL in the consolidated statement of financial position	128	–	Level 2	Discounted cash flow. Future cash flows are estimated based on forward exchange rates (from observable forward exchange rates at the end of the reporting period) and contracted forward rates, discounted at a rate that reflects the credit risk of various counterparties.

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The Directors consider that the carrying amounts of financial assets and financial liabilities recognised in the consolidated financial statements approximate their fair values.

## 35. RETIREMENT BENEFIT SCHEMES

The Group has joined a Mandatory Provident Fund Scheme (“MPF Scheme”) for all qualifying employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

In addition to the MPF Scheme, the Group voluntarily set up a retirement benefit scheme in Hong Kong for selected employees in the PRC since 2007. During the year ended 31st December, 2016, the cost charged to profit or loss of HK\$263,000 (2015: HK\$3,300,000) represents contributions payable to this scheme by the Group in respect of services provided by the selected PRC employees in 2016. This retirement benefit scheme is registered with the Mandatory Provident Fund Schemes Authority under the Occupational Retirement Schemes Ordinance. The assets of the retirement benefit scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the retirement benefit scheme, only the employer is required to make contributions to the scheme at the amounts specified in the rules. The only obligation of the Group with respect to the retirement benefit scheme is to make the required contributions under the scheme. The scheme was terminated during the year ended 31st December, 2016.

As stipulated under the rules and regulations in the PRC, the subsidiaries established in the PRC are required to contribute certain percentage of payroll costs of its employees to a state-managed retirement scheme operated by the provincial governments for its employees in the PRC. After the contribution, the Group has no further obligation for actual payment of the retirement benefits.

The retirement benefit scheme contributions arising from the above retirement schemes charged to profit or loss represent contributions payable to the funds by the Group at rates specified in the rules of the schemes.

The total cost charged to the consolidated statement of profit or loss and other comprehensive income of HK\$40,410,000 (2015: HK\$31,070,000) represents contributions paid and payable to these schemes by the Group. At the end of the reporting period, there was no forfeited contribution available to reduce future contributions in both years.

## 36. OPERATING LEASES

### The Group as lessor:

At the end of the reporting period, the Group had contracted with lessees for the following future minimum lease payments:

	<b>2016</b> <i>HK\$'000</i>	2015 <i>HK\$'000</i>
Within one year	<b>1,270</b>	3,500
In the second to fifth year inclusive	<b>263</b>	1,518
	<b>1,533</b>	5,018

Property rental income earned during the year was HK\$2,968,000 (2015: HK\$3,630,000). The properties held at the reporting date have committed tenants for an average terms of two years with fixed rentals.

### The Group as lessee:

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases in respect of rented premises which fall due as follows:

	<b>2016</b> <i>HK\$'000</i>	2015 <i>HK\$'000</i>
Within one year	<b>683</b>	1,002
In the second to fifth year inclusive	<b>224</b>	1,052
	<b>907</b>	2,054

Operating lease payments represent rentals payable by the Group for certain of its office, retail shop and other premises. Leases are negotiated for an average term of two years and rentals are fixed for an average term of two years.

## 37. CAPITAL COMMITMENTS

## 38. RELATED PARTY TRANSACTIONS

Argent entered into a relocation agreement with 深圳市橫崗佳兆業投資諮詢有限公司 (Shenzhen Henggang Kaisa Investment Consulting Co., Ltd.) (“Kaisa Property”) and 佳兆業集團(深圳)有限公司 (Kaisa Group (Shenzhen) Co., Ltd.) (“Kaisa Shenzhen”) on 15th August, 2014 (the “Relocation Agreement”) in relation to the Disposal (see note 8) for a total consideration of RMB1,579,700,000 (equivalent to approximately HK\$1,767,052,000). On the same day, each of Mr. Ng Hoi Ying, Michael (a director and the chairman of the Company), Mr. Ng Kim Ying (a director of the Company), Mr. Li Chi Hung (a member of the senior management of the Company) and Mr. Hung Chao Chia (a member of the senior management of the Company) (collectively the “Individuals”) entered into an individual relocation agreement with Kaisa Property and Kaisa Shenzhen (collectively the “Individual Relocation Agreements”) in respect of facilitating Kaisa Property to become the named developer of the Argent Urban Renewal Project and the disposal of four pieces of land owned by the Individuals (collectively the “Individuals’ Disposals”). Mr. Ng Hoi Ying, Michael and Mr. Ng Kim Ying were Directors and connected persons of the Company. Since the Individuals’ Disposals and the Disposal were related to each other, entered into as part of the same transaction with the same counter-parties, and were inter-conditional, the Individuals’ Disposals and the Disposal fell under the circumstances described in Rule 14A.20(1) of the Listing Rules. As such, the entering into of the Relocation Agreement and the Individual Relocation Agreements on the same day represented an arrangement under Rule 14A.20(1) of the Listing Rules, and it followed that each of Kaisa Property and Kaisa Shenzhen was a “deemed connected person” of the Company in respect of the Relocation Agreement and the Individual Relocation Agreements pursuant to the same rules.

Additionally, on 15th August, 2014, Argent and 深圳市全聯行地產顧問有限公司 (Shenzhen Quanlianhong Property Consulting Co., Ltd.) (“QLH Property”) entered into an agreement (the “Service Agreement”) for the provision of consultation services by QLH Property to Argent in relation to the Disposal in which the Individuals were interested by virtue of the Individual Relocation Agreements. Pursuant to the Service Agreement, Argent would pay a total service fee of RMB117,000,000 (equivalent to approximately HK\$145,084,000) to QLH Property by instalments. Argent had paid RMB81,900,000 (equivalent to approximately HK\$103,789,000) and RMB35,100,000 (equivalent to approximately HK\$41,295,000) to QLH Property during the years ended 31st December, 2014 and 2016 respectively. As such, the entering into of the Service Agreement between Argent and QLH Property constituted the provision of financial assistance to the Individuals by the Company pursuant to Rule 14A.24(4) of the Listing Rules.

As the Relocation Agreement, the Individual Relocation Agreements and the Service Agreement related to the Argent Urban Renewal Project and were entered into on the same day, these transactions should be aggregated under Rule 14.22 of the Listing Rules. Accordingly, the Disposal, Service Agreement and the transactions contemplated thereunder (the “Transactions”) constituted non-exempt connected transactions of the Company under Chapter 14A of the Listing Rules and were subject to the reporting, announcement and independent shareholders’ approval requirements thereunder. The Transactions were approved by the independent shareholders of the Company at the special general meeting held on 8th October, 2014 and completed during the year ended 31st December, 2016.

Trade purchases	4,298	3,490	–	–

Sales of goods to the associate and joint venture were made at the Group's usual list prices.

Other than the above, the details of loan to, trade receivable from and trade payable to the associate and joint venture are shown in notes 22, 26 and 29 respectively. No guarantees have been given to or received from the associate and joint venture.

### Compensation of key management personnel

The remuneration of Directors and other members of key management during the year was as follows:

	2016 <i>HK\$'000</i>	2015 <i>HK\$'000</i>
Short-term benefits	10,660	10,703
Post-employment benefits	758	590
