BUSINESS REVIEW

Profitability analysis

The Group's consolidated revenue increased by 9% to HK\$1,593.3 million (2013: HK\$1,463.0 million). Loss attributable to owners of the Company amounted to HK\$100.9 million (2013: profit of HK\$47.7 million). Loss per share was 26.3 HK cents in 2014 (2013: earnings per share of 12.4 HK cents).

The significant loss reported for the year of 2014 was mainly attributable to:

- (i) the significant increase in labour costs after the statutory minimum wage in Shenzhen City, where the Group's manufacturing facilities were located, increased by 13% as from February 2014 and the significant increase in other operating costs in mainland China throughout 2014;
- (ii) recognition of expenses relating to the disposal of the Group's interest in Argent Urban Renewal Project (the "Disposal") amounting to HK\$112.5 million in 2014, whereas the relevant income can only be recognised upon the completion of the Disposal which is expected to be in the first half of 2016; and
- (iii) recognition of a net after-tax gain of HK\$19.3 million by the Group in 2013 upon the disposal of two wholly-owned subsidiaries that held two pieces of unutilised land in Heyuan City, which raised the Group's profit in 2013 and caused the Group's profit for the year ended 31st December, 2014 to appear lower in comparison.

LAURA ASHLEY

Chairman's Statement

Original design manufacturing (ODM) division

Revenue generated by the ODM division contributed to 89% of the consolidated revenue of the Group in 2014 (2013: 90%). The Group continued to gain market share as its ODM customers consolidated their vendor portfolio by concentrating their orders on more reliable suppliers. Sales to ODM customers increased by 8% from HK\$1,311.0 million in 2013 to HK\$1,417.4 million in 2014. Growth was satisfactory in both the United States (the "US") (up by 27%) and Asia (up by 38%) whereas sales to Europe remained flat as the general market sentiment remained soft in Europe in 2014. Sales to Europe, the US, Asia and other regions accounted for 61%, 32%, 6% and 1% respectively of the revenue of the ODM division in 2014 (2013: 66%, 28%, 5% and 1% respectively). The Group continued to maintain a balanced sales mix between prescription frames and sunglasses. Sales of prescription frames, sunglasses and spare parts accounted for 52%, 46% and 2% respectively of the revenue of this division in 2014 (2013: 50%, 47% and 3% respectively).

The Group's interest in Trenti Industria Occhiali S.r.l. ("Trenti") increased from 13% to 50% upon completion of its subscription as well as acquisition of additional quotas in this Italian company in late August 2014 for an aggregate consideration of HK\$21.0 million. This transaction would present opportunities to the customers of both ODM and distribution divisions to source "Made in Italy" products by leveraging the combined design and product development as well as manufacturing capabilities of the Group and Trenti.

Distribution and retailing divisions

The Group's distribution division made two acquisitions in July 2014 :

- (i) acquisition of the entire issued share capital and the shareholder's loan of Stepper (UK) Limited, the distributor of "STEPPER" eyewear in the United Kingdom, for an aggregate consideration of HK\$36.3 million; and
- (ii) acquisition of the business and certain assets of the distributor of "STEPPER" eyewear in France by its French subsidiary ("Stepper France") for an aggregate consideration of HK\$9.2 million (collectively, the "Stepper Acquisitions").

Chairman's Statement

Boosted by the business generated as a result of the Stepper Acquisitions, revenue generated by the distribution division increased by 17% from HK\$148.5 million in 2013 to HK\$173.5 million in 2014. Revenue of the distribution division accounted for 11% of the consolidated revenue of the Group in 2014 (2013: 10%). Double-digit growth in sales was recorded in Europe, Asia and North America in 2014. Sales to Europe, Asia, North America and other regions accounted for 53%, 27%, 7% and 13% respectively of the revenue of the distribution division in 2014 (2013: 48%, 28%, 7% and 17% respectively).

The retailing division continued to contribute less than 1% to the consolidated revenue of the Group. Revenue of this division decreased from HK\$3.5 million in 2013 to HK\$2.4 million in 2014 as the general eyewear retailing market in Shenzhen City remained weak in 2014.

Factory relocation

The Group entered into a relocation agreement (the "Relocation Agreement") with 深圳市橫崗佳兆業投資諮詢有限公司 (Shenzhen Henggang Kaisa Investment Consulting Co., Ltd.) and 佳兆業集團(深圳)有限公司 (Kaisa Group (Shenzhen) Co., Ltd.) on 15th August, 2014 in relation to the Disposal for a total consideration of RMB1,579.7 million (equivalent to approximately HK\$1,989.5 million). The Relocation Agreement was approved by the independent shareholders of the Company at the special general meeting held on 8th October, 2014. The Group has received the first instalment of proceeds of the Disposal, amounting to HK\$647.8 million net of payment of withholding tax of HK\$72.0 million, in October 2014. Expenses relating to the Disposal amounted to HK\$112.5 million were recognised in the year ended 31st December, 2014.

Financial position and liquidity

Cash flows

The Group's operating activities generated a healthy cash inflow of HK\$103.4 million in 2014 (2013: HK\$113.4 million) despite a substantial decline in profitability of the core business of the Group. The receipt of the first instalment of proceeds of the Disposal in October 2014, HK\$647.8 million net of payment of withholding tax of HK\$72.0 million, had significantly increased the cash balance of the Group. Capital expenditure increased significantly from HK\$66.2 million in 2013 to HK\$230.3 million in 2014 as the Group had accelerated the pace of its factory

Chairman's Statement

relocation preparation since October 2014 and also acquired its office in Hong Kong in June 2014. Total amount of dividend payments increased from HK\$20.2 million in 2013 to HK\$24.2 million in 2014. The net cash position of the Group (being the total of short-term bank deposits as well as bank balances and cash less bank borrowings) increased from HK\$169.5 million as at 31st December, 2013 to HK\$500.4 million as at 31st December, 2014.

Working capital management

Due to the Stepper Acquisitions, inventory balances increased by 4% from HK\$208.1 million as at 31st December, 2013 to HK\$216.2 million as at 31st December, 2014. Inventory turnover period (being the ratio of inventory balances to cost of sales) improved from 64 days in 2013 to 60 days in 2014 as a result of the Group's efforts in cutting down the production lead time. Total amount of debtors and bills receivable balances decreased slightly by 2% from HK\$413.3 million as at 31st December, 2013 to HK\$405.3 million as at 31st December, 2014 as some key customers postponed the delivery schedule of their orders from end of 2014 to early 2015. Debtors turnover period (being the ratio of the total of trade debtors and bills receivable to revenue) shortened correspondingly from 103 days in 2013 to 93 days in 2014. The receipt of the first instalment of proceeds of the Disposal had significantly increased the amount of both current assets and current liabilities. As a substantial portion of the cash received was subsequently spent on capital expenditure for the relocation of its factory, the current ratio (being the ratio of total current assets to total current liabilities) of the Group decreased from 2.5 to 1.0 as at 31st December, 2013 to 1.2 to 1.0 as at 31st December, 2014.

Gearing position

The gearing position of the Group remained low throughout 2014. The debt to equity ratio (expressed as a percentage of non-current liabilities over equity attributable to owners of the Company) remained stable at less than 1% as at both 31st December, 2014 and 31st December, 2013. The non-current liabilities of the Group comprised only deferred taxation which amounted to HK\$10.0 million as at 31st December, 2014 (31st December, 2013: HK\$10.1 million).

Chairman's Statement

Net asset value

The Group had 383,650,000 shares in issue as at both 31st December, 2014 and 31st December, 2013 with equity attributable to owners of the Company amounting to HK\$1,200.5 million and HK\$1,316.4 million as at 31st December, 2014 and 31st December, 2013 respectively. Net asset value per share (being the equity attributable to owners of the Company divided by the total number of shares in issue) as at 31st December, 2014 was HK\$3.13 (31st December, 2013: HK\$3.43).

Foreign currency exposure

The Group was exposed to the fluctuation of Renminbi against both US dollar and Hong Kong dollar. Save as above, the Group had limited exposure to foreign exchange rate fluctuations as most of its transactions were conducted in either US dollar, Hong Kong dollar or Renminbi and the exchange rate movements between the US dollar and Hong Kong dollar were relatively stable during the year under review.

PROSPECTS

Factory relocation

The factory relocation project entered into a new phase after the Disposal was approved at the special general meeting of the Company held in October 2014. New buildings are being constructed in the factory sites in Pingdi Town of Shenzhen City, Heyuan City and Zhongshan City. Relevant capital expenditure is financed by the first instalment of proceeds of the Disposal. Relocation of production lines will be executed in phases, starting in around July 2015 and is expected to be completed in October 2015. The Group anticipates that there will be no material disruption to its manufacturing operations throughout the relocation exercise.

ODM division

The ODM business is closely correlated to the global business environment which remains uncertain in 2015. Concerns over depreciation of major currencies against the US dollar in recent months and possible interest rate hikes in the US in the second half of the 2015 continue to affect the procurement confidence of our ODM customers. The Group maintains an order book of around three months' sales order on hand. The Group is working closely with Trenti, a 50% owned associate in Italy acquired in 2014, to capture the opportunities of providing "Made in Italy" solutions to the customers of both ODM and distribution divisions.

Distribution division

The Stepper Acquisitions have brought transformational changes to the business of our distribution division. The Group's house brand and licensed brand products are directly sold to retail shops in the United Kingdom, France, Belgium and Luxembourg, whereas they are distributed through the independent distributors in the rest of the world. The Group is also actively exploring opportunities to expand both its distribution network (by way of both direct distribution and alliances with strategic distribution partner(s)) and brands portfolio (by both acquisition and licensing of brands).

Chairman's Statement

Margin pressure

The margin pressure that the Group has been experiencing in recent years will continue in 2015. The statutory minimum wage of Shenzhen City has been raised by 12% since March 2015. The statutory minimum wage of Heyuan City and Zhongshan City will also be raised by 20% and 15% respectively in May 2015. Price adjustments by the ODM division and the increase in sales of the higher margin business of distribution division can only offset part of the cost increase. Although the factory relocation represents a good opportunity for the Group to upgrade and modernise its production processes in its newly established factories and thereby improve its operational efficiency, the relevant economic benefits will not be realised in 2015 as the relocation is expected to be completed in October 2015.

Summary

2015 is a very critical year for the Group's development. The execution of the Group's factory relocation, the upgrading of its ODM business as well as expansion of its distribution business will lay down the cornerstone of the future development and success of the Group.

DIVIDENDS

The Board does not recommend the payment of a final dividend (2013: 2.5 HK cents per share) and has resolved to recommend a second special dividend of 3.8 HK cents per share for the year ended 31st December, 2014. Subject to the approval of shareholders at the forthcoming annual general meeting of the Company to be held on 20th May, 2015 (the "AGM"), the second special dividend will be payable on or about 15th June, 2015 to shareholders whose names appear on the register of members of the Company on 28th May, 2015.

CLOSURE OF REGISTER OF MEMBERS

For the purposes of determining shareholders' eligibility to attend and vote at the AGM, and entitlement to the second special dividend, the register of members of the Company will be closed. Details of such closures are set out below:

(i) For determining eligibility to attend and vote at the AGM:

Latest time to lodge transfer documents for registration	4:30 pm on 14th May, 2015
Closure of register of members	15th May, 2015 to 20th May, 2015 (both dates inclusive)
Record date	20th May, 2015

(ii) For determining entitlement to the second special dividend:

Latest time to lodge transfer documents for registration	4:30 pm on 26th May, 2015
Closure of register of members	27th May, 2015 to 28th May, 2015 (both dates inclusive)
Record date	28th May, 2015

Chairman's Statement

During the above closure periods, no transfer of shares will be effected. To be eligible to attend and vote at the AGM, and to qualify for the second special dividend, all properly completed transfer forms accompanied by the relevant share certificates must be lodged with the Company's Hong Kong branch share registrar, Tricor Secretaries Limited, at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration no later than the aforementioned latest time.

ANNUAL GENERAL MEETING

The notice of AGM will be despatched to the shareholders of the Company and will also be available on the Company's website at www.artsgroup.com and Hong Kong Exchanges and Clearing Limited's HKExnews website at www.hkexnews.hk in mid-April 2015.

APPRECIATION

On behalf of the board of directors, I would like to express my sincere appreciation and thanks to our shareholders, customers, suppliers, bankers and staff for their effort and commitment.

AUDITOR

A resolution will be submitted to the forthcoming annual general meeting of the Company to re-appoint Messrs. Deloitte Touche Tohmatsu as the auditor of the Company.

On behalf of the Board
Ng Hoi Ying, Michael
Chairman

Hong Kong, 30th March, 2015

Corporate Governance Report

CORPORATE GOVERNANCE PRACTICES

The board of directors of the Company (the “Board”) has adopted the code provisions set out in the Corporate Governance Code (the “CG Code”) contained in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) as its own code on corporate governance practices. The Company had complied with all applicable code provisions set out in the CG Code throughout the year ended 31st December, 2014, except for deviation from code provision A.2.1 of the CG Code as disclosed under the paragraph “Chairman and Chief Executive Officer” below.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 to the Listing Rules as its own code of conduct regarding securities transactions by the directors of the Company (the “Directors”). Having made specific enquiry of the Directors, all the Directors confirmed that they had complied with the required standards as set out in the Model Code throughout the year ended 31st December, 2014.

BOARD OF DIRECTORS

The Board comprises six Directors, three of whom are executive Directors, namely Mr. Ng Hoi Ying, Michael, Mr. Ng Kim Ying and Mr. Lee Wai Chung, and three are independent non-executive Directors, namely Mr. Wong Chi Wai, Mr. Chung Hil Lan Eric and Mr. Lam Yu Lung.

During the year ended 31st December, 2014, six Board meetings, one general meeting and one special general meeting were held. The attendance of each Director is set out as follows:

Directors	Board meetings	Attendance Record	
		General meeting	Special General meeting
Ng Hoi Ying, Michael	6/6	1/1	1/1
Ng Kim Ying	6/6	1/1	1/1
Lee Wai Chung	6/6	1/1	1/1
Wong Chi Wai	6/6	1/1	0/1
Chung Hil Lan Eric	6/6	1/1	1/1
Lam Yu Lung	6/6	1/1	1/1

The Board is responsible for the formulation of the key business and strategic decisions of the Company and its subsidiaries (collectively the “Group”) and monitoring the performances of the management team. The Board has delegated the authority and responsibility for implementing its business strategies and managing the daily operations of the Group’s business to the management team.

Mr. Ng Hoi Ying, Michael, the Chairman of the Board and an executive director and Mr. Ng Kim Ying, an executive director, are brothers.

All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skill. The company secretary of the Company (the “Company Secretary”) also updates the Directors on the latest development of the Listing Rules and other applicable regulatory requirements.

CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Code provision A.2.1 of the CG Code stipulates that the roles of chairman and chief executive officer should be separate and should not be performed by the same individual. Mr. Ng Hoi Ying, Michael ("Mr. Ng") is the founder and chairman of the Group. The Company does not at present have any officer with the title "chief executive officer" and Mr. Ng has been carrying out the duties of both the chairman and chief executive officer since the establishment of the Group and the Company. The Board intends to maintain this structure in the future as it believes that this structure ensures efficient and effective formulation and implementation of business strategies without compromising the balance of power and authority between the Board and the management of the Company.

APPOINTMENT AND RE-ELECTION OF DIRECTORS

According to Bye-law 87(1) of the Bye-laws of the Company (the "Bye-laws"), at each annual general meeting of the Company, one-third of the Directors for the time being (or if their number is not a multiple of three, the number nearest to but not less than one-third) shall retire from office by rotation. Bye-law 87(2) of the Bye-laws further provides that the Director(s) to retire by rotation shall be those who have been longest in office since their last re-election or appointment, and as between persons who became or were last re-elected Directors on the same day, those to retire shall (unless they otherwise agree among themselves) be determined by lot. According to Bye-law 86(2), any Director appointed by the Board to fill a casual vacancy shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election at that meeting.

Mr. Lee Wai Chung and Mr. Wong Chi Wai who were re-elected as Directors in the annual general meeting of the Company held on 23rd May, 2012 will retire at the forthcoming annual general meeting and will offer themselves for re-election. Their proposed term of office shall not be more than three years and is subject to retirement by rotation in accordance with the Bye-laws.

Corporate Governance Report

APPOINTMENT AND RE-ELECTION OF DIRECTORS (continued)

Mr. Chung Hil Lan Eric and Mr. Ng Kim Ying were re-elected as Directors in the annual general meeting of the Company held on 23rd May, 2013 for a term of no more than three years and are subject to retirement by rotation in accordance with the Bye-laws. Mr. Ng Hoi Ying, Michael and Mr. Lam Yu Lung were re-elected as Directors in the annual general meeting of the Company held on 23rd May, 2014 for a term of no more than three years and are subject to retirement by rotation in accordance with the Bye-laws.

BOARD COMMITTEES

To enhance the effectiveness of the management of the Company, the Board has established the Audit Committee, the Remuneration Committee and the Nomination Committee to oversee various aspects of the Company's affairs.

AUDIT COMMITTEE

An Audit Committee has been established by the Company since 1998 and currently comprises Mr. Wong Chi Wai (chairman of the Audit Committee), Mr. Chung Hil Lan Eric and Mr. Lam Yu Lung, all of whom are independent non-executive Directors. The duties of the Audit Committee include (but are not limited to) review of the interim and annual reports of the Group as well as various auditing, financial reporting and internal control matters with the management and/or external auditor of the Company. The Audit Committee has performed the above duties during the year ended 31st December, 2014. Three Audit Committee meetings were held during the year ended 31st December, 2014 and the attendance of each committee member is set out as follows:

Directors	Attendance Record
Wong Chi Wai	3/3
Chung Hil Lan Eric	3/3
Lam Yu Lung	3/3

REMUNERATION COMMITTEE

A Remuneration Committee has been established by the Company since 2003 and currently comprises Mr. Chung Hil Lan Eric (chairman of the Remuneration Committee), Mr. Wong Chi Wai and Mr. Lam Yu Lung, all of whom are independent non-executive Directors.

One Remuneration Committee meeting was held during the year ended 31st December, 2014 and the attendance of each committee member is set out as follows:

Corporate Governance Report

REMUNERATION COMMITTEE (continued)

The major roles and functions of the Remuneration Committee are summarised as follows:

1. To determine the remuneration of the executive Directors and senior management; and
2. To review the remuneration policy of the Group.

During the year ended 31st December, 2014, the Remuneration Committee has, among other things, reviewed and determined the remuneration of the executive Directors and senior management with reference to their performance and the overall remuneration policy of the Group and approved the terms of executive Directors' service contracts. The remuneration of independent non-executive Directors was recommended by the Board and approved by the shareholders of the Company at the annual general meeting.

As at 31st December, 2014, the Group employed approximately 10,500 (31st December, 2013: 9,800) full time staff in mainland China, Hong Kong and Europe. The Group remunerates its employees based on their performance, experience, qualifications and prevailing market salaries while performance bonuses are granted on a discretionary basis after considering individual performance and the operating results of the Group. Other employee benefits include insurance and medical coverage, subsidised educational and training programmes as well as provident fund schemes.

NOMINATION COMMITTEE

A Nomination Committee has been established by the Company since 2012 and currently comprises Mr. Lam Yu Lung (chairman of the Nomination Committee), Mr. Wong Chi Wai and Mr. Chung Hil Lan Eric, all of whom are independent non-executive Directors. The duties of the Nomination Committee include (but are not limited to) reviewing the structure, size and composition of the Board, assessing the independence of the independent non-executive Directors, making recommendations to the Board on the appointment or re-appointment of Directors and determining the policy, nomination procedures and process and criteria for the nomination of Directors. The Nomination Committee has performed the above duties during the year ended 31st December, 2014.

The Nomination Committee has adopted a board diversity policy in 2013. The Company recognises and embraces the benefits of having a diverse Board to enhance the quality of its performance. With a view to achieving a sustainable and balanced development, the Company sees increasing diversity at the Board level as an essential element in supporting the attainment of its strategic objectives and its sustainable development. Selection of candidates will be based on a range of diversity perspectives, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service. The ultimate decision will be based on merit and contribution that the selected candidates will bring to the Board.

Corporate Governance Report

NOMINATION COMMITTEE (continued)

One Nomination Committee meeting was held during the year ended 31st December, 2014 and the attendance of each committee member is set out as follows:

Directors	Attendance Record
Lam Yu Lung	1/1
Wong Chi Wai	1/1
Chung Hil Lan Eric	1/1

CORPORATE GOVERNANCE FUNCTIONS

The Board is responsible for determining the policy for the corporate governance of the Company and performing the corporate governance duties as below:

1. To develop and review the Group's policies and practices on corporate governance and make recommendations;
2. To review and monitor the training and continuous professional development of Directors and senior management;
3. To review and monitor the Group's policies and practices on compliance with all legal and regulatory requirements (where applicable);
4. To develop, review and monitor the code of conduct and compliance manual (if any) applicable to the employees and directors of the Group; and
5. To review the Group's compliance with the code of corporate governance and disclosure requirements in the Corporate Governance Report.

ACCOUNTABILITY AND AUDIT

The Directors acknowledge their responsibility to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group. In preparing the accounts for the year ended 31st December, 2014, the Directors have adopted suitable accounting policies which are pertinent to the Group's operation and relevant to the financial statements, have made judgements and estimates that are prudent and reasonable, and have prepared the accounts on a going concern basis.

A statement by the auditor about its reporting responsibilities is included in the Independent Auditor's Report on pages 27 to 28.

Corporate Governance Report

Tax consultancy services relating to the disposal of Group's interest in the Argent Urban Renewal Project	131

INTERNAL CONTROLS

It is the responsibility of the Board to ensure that the Group maintains sound and effective internal controls to safeguard the shareholders' investments and the Group's assets.

The internal control system of the Group comprises a well-established organisational structure and comprehensive policies and standards. Areas of responsibilities of each business and operational unit are clearly defined to ensure effective check and balances.

The Board, with the assistance of Royal Assets Advisory Limited, assessed the effectiveness of the Group's internal control system which covered all material controls, including financial, operational and compliance controls as well as risk management functions during the year ended 31st December, 2014. No major issue had been raised but certain areas for improvement had been identified and appropriate measures had been taken.

COMPANY SECRETARY

Mr. Lee Wai Chung was appointed as the Company Secretary since 1996. There was no non-compliance with requirements of professional qualifications and professional training under the Listing Rules during the year ended 31st December, 2014.

SHAREHOLDERS' RIGHTS

Convening a Special General Meeting by Shareholders

Pursuant to Bye-law 58, a special general meeting may be convened by the Board upon requisition by any shareholder holding not less than one-tenth of the issued share capital of the Company carrying the right to vote at any general meetings of the Company. The shareholder shall make a written requisition to the Board or the Company Secretary, specifying the shareholding information of the shareholder, his/her contact details and the proposal regarding any specified transaction/business and its supporting documents.

The Board shall arrange to hold such general meeting within two (2) months after the receipt of such written requisition. Pursuant to Bye-law 59, the Company shall serve requisite notice of the general meeting, including the time, place of meeting and particulars of resolutions to be considered at the meeting and the general nature of the business.

Corporate Governance Report

SHAREHOLDERS' RIGHTS (continued)

If within twenty-one (21) days of the receipt of such written requisition, the Board fails to proceed to convene such special general meeting, the shareholder shall do so pursuant to the provisions of Section 74(3) of the Companies Act 1981 of Bermuda.

Making Enquiry to the Board

Shareholders may send written enquiries, either by post, by facsimile or by email, together with his/her contact details, addressed to the head office of the Company at the following address or facsimile number or via email:

Arts Optical International Holdings Limited
Unit 308, 3/F, Sunbeam Centre
27 Shing Yip Street, Kwun Tong
Kowloon, Hong Kong

Facsimile number: (852) 2195 8928
Email: desmond@artsgroup.com
Attention: Company Secretary

All enquiries shall be collected by the Company Secretary who shall report to the executive Directors periodically on the enquiries collected. The executive Directors shall review the enquiries and assign different kinds of enquiries to the appropriate division head/manager for answering. After receiving the answers to all enquiries from the relevant division head/manager, the Company Secretary will collate the answers for the executive Directors' review and approval. The Company Secretary shall then be authorised by the executive Directors to reply to all enquiries in writing.

Putting Forward Proposals at General Meetings

A shareholder shall make a written requisition to the Board or the Company Secretary at the head office address of the Company, specifying the shareholding information of the shareholder, his/her contact details and the proposal he/she intends to put forward at general meeting regarding any specified transaction/business and its supporting documents.

INVESTOR RELATIONS

Constitutional Documents

There was no change to the Company's Memorandum of Association and Bye-laws during the year ended 31st December, 2014. A copy of the latest consolidated version of the Memorandum of Association and Bye-laws is posted on the websites of the Company and Hong Kong Exchanges and Clearing Limited.

Shareholders' Communication Policy

The Company has adopted a Shareholders Communication Policy since 2012 with the objective of ensuring that the Company's shareholders are provided with ready, equal and timely access to balanced and understandable information about the Company in order to enable the shareholders to exercise their rights in an informed manner, and to allow the shareholders and the investment community to engage actively with the Company.

Independent Auditor's Report

**TO THE SHAREHOLDERS OF
ARTS OPTICAL INTERNATIONAL HOLDINGS LIMITED**

雅視光學集團有限公司

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Arts Optical International Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) set out on pages 29 to 111, which comprise the consolidated statement of financial position as at 31st December, 2014, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditor's Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31st December, 2014 and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Consolidated Statement of Changes in Equity

For the year ended 31st December, 2014

Notes:

- (a) Special reserve represents the difference between the nominal amount of the share capital issued by the Company and the aggregate of the nominal amount of the issued share capital and the surplus account of Allied Power Inc. pursuant to the group reorganisation in 1996.
- (b) Other reserve arose from the acquisition of additional interest in a subsidiary from non-controlling interests and the disposal of partial interests in subsidiaries to non-controlling interests and a third party without losing control.

During the year ended 31st December, 2013, the Group disposed of 2% equity interest in a non wholly-owned subsidiary, Stepper Eyewear Limited, to non-controlling interests at a cash consideration of HK\$1,961,784. The difference of HK\$1,225,053 between the cash consideration received and the net assets attributable to the 2% equity interest in Stepper Eyewear Limited disposed of amounting to HK\$736,731 at the date of disposal has been recognised directly in other reserve.

During the year ended 31st December, 2014, the Group acquired an additional 12% equity interest in a non wholly-owned subsidiary, Eyeconcept Limited, from non-controlling interests at a cash consideration of HK\$12. The difference of HK\$458,398 between the cash consideration paid and the net liabilities attributable to the 12% of equity interest in Eyeconcept Limited acquired amounting to HK\$458,386 at the date of acquisition has been recognised directly in other reserve. After acquisition, Eyeconcept Limited became a wholly-owned subsidiary of the Group.

1. GENERAL

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section of the annual report.

The Company is an investment holding company. The principal activities of the Company and its principal subsidiaries (the “Group”) are set out in note 39.

The consolidated financial statements are presented in Hong Kong dollars which is different from the functional currency of the Company, which is United States dollars, as directors of the Company (the “Directors”) consider that Hong Kong dollars is the most appropriate presentation currency in view of its place of listing.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

The Group has applied for the first time in the current year the following amendments to HKFRSs and a new Interpretation issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”):

Amendments to HKFRS 10, HKFRS 12 and HKAS 27	Investment Entities
Amendments to HKAS 32	Offsetting Financial Assets and Financial Liabilities
Amendments to HKAS 36	Recoverable Amount Disclosures for Non-Financial Assets
Amendments to HKAS 39	Novation of Derivatives and Continuation of Hedge Accounting
HK(IFRIC) – Int 21	Levies

The application of the amendments to HKFRSs and the new Interpretation in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

HKFRS 9 Financial Instruments

HKFRS 9 issued in 2009 introduced new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and further amended in 2013 to include the new requirements for general hedge accounting. Another revised version of HKFRS 9 was issued in 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a ‘fair value through other comprehensive income’ (FVTOCI) measurement category for certain simple debt instruments.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) (continued)

HKFRS 9 Financial Instruments (continued)

Key requirements of HKFRS 9 are described below:

- All recognised financial assets that are within the scope of HKAS 39 *Financial Instruments: Recognition and Measurement* are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The Directors are in the process of assessing the impact on the application of HKFRS 9. For the moment, it is not practicable to provide a reasonable estimate of that effect of HKFRS 9 until a detailed review has been completed.

Other than as described above, the Directors anticipate that the application of other new and revised HKFRSs will have no material impact on the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange (the “Listing Rules”) and by the Hong Kong Companies Ordinance (Cap. 32).

Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for investment properties that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Basis of consolidation (continued)

Changes in the Group's ownership interests in existing subsidiaries (continued)

When the Group loses control of a subsidiary, a gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary (i.e. reclassified to profit or loss or transferred to another category of equity as specified/permitted by applicable HKFRSs). The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under HKAS 39, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:

- deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that standard.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Business combinations (continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another HKFRS.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Goodwill (continued)

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

The Group's policy for goodwill arising on the acquisition of an associate is described below.

Investments in associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with HKFRS 5. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments in associates and joint ventures (continued)

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale. When the Group retains an interest in the former associate or joint venture and the retained interest is a financial asset, the Group measures the retained interest at fair value at that date and the fair value is regarded as its fair value on initial recognition in accordance with HKAS 39. The difference between the carrying amount of the associate or joint venture at the date the equity method was discontinued, and the fair value of any retained interest and any proceeds from disposing of a part interest in the associate or joint venture is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate or joint venture on the same basis as would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no remeasurement to fair value upon such changes in ownership interests.

When the Group reduces its ownership interest in an associate or a joint venture but the Group continues to use the equity method, the Group reclassifies to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the shareholder's rights to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement. Royalty arrangement that is based on sales is recognised by reference to the underlying arrangement.

The Group's policy for recognition of revenue from operating leases is described in the accounting policy below.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Property, plant and equipment

Property, plant and equipment other than buildings under construction, are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of assets, other than buildings under construction, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Buildings under construction represents property, plant and equipment in the course of construction for production or for its own use purposes. Buildings under construction is carried at cost less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Buildings under construction is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are recognised immediately as an expense.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Leasehold land for own use

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as “prepaid lease payments” in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment properties under the fair value model. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately (see accounting policy in respect of impairment losses on tangible and intangible assets below).

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment losses on tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. In addition, intangible assets with indefinite useful lives are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost of inventories are determined on a weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

Financial assets are classified into loans and receivables and available-for-sale (“AFS”) financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including debtors, loan receivable, loans to a joint venture, short-term bank deposits and bank balances and cash) are measured at amortised cost using the effective interest method, less any impairment (see accounting policy in respect of impairment of financial assets below).

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

AFS financial assets

AFS financial assets are non-derivatives that are either designated as available-for-sale or are not classified as financial assets at fair value through profit or loss, loans and receivables or held-to-maturity investments. For AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment losses at the end of each reporting period (see accounting policy in respect of impairment of financial assets below).

Dividends on AFS equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial assets, such as trade debtors, assets are assessed for impairment on a collective basis even if they were assessed not to be impaired individually. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the credit period of 30 days to 120 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial assets (continued)

Impairment of financial assets (continued)

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade debtors, where the carrying amount is reduced through the use of an allowance account. When a trade debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments (continued)

Financial liabilities and equity instruments (continued)

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities (including creditors and accrued charges, and bank borrowings) are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using the tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary difference associated with investments in subsidiaries and interests in an associate and a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation (continued)

Deferred tax (continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies (continued)

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks; and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during that period, in which case, the exchange rates at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange reserve.

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in a joint arrangement or an associate that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that includes a foreign operation that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or joint arrangements that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

3. SIGNIFICANT ACCOUNTING POLICIES (continued)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to the defined contribution retirement benefit schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Critical judgements in applying accounting policies (continued)

Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities or deferred tax assets arising from investment properties that are measured using the fair value model, the Directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in measuring the Group's deferred taxation on investment properties, the Directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. As a result, the Group has not recognised any deferred taxes on changes in fair value of investment properties as the Group is not subject to any income taxes on disposal of its investment properties.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key source of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year.

Fair value of investment properties

Investment properties are carried in the consolidated statement of financial position at 31st December, 2014 at their fair value, details of which are disclosed in note 15. The fair value of the investment properties was determined by reference to valuations conducted on these properties by an independent firm of property valuers using property valuation techniques which involve certain assumptions of prevailing market conditions. Favourable or unfavourable changes to these assumptions may result in changes in the fair value of the Group's investment properties and corresponding adjustments to the changes in fair value reported in the consolidated statement of profit or loss and other comprehensive income and the carrying amount of these properties included in the consolidated statement of financial position. The carrying amount of Group's investments properties at 31st December, 2014 is HK\$130,250,000 (2013: nil).

Estimated impairment of intangible assets

Determining whether intangible assets (i.e. trademark and customer relationships) are impaired requires an estimation of the recoverable amount of these intangible assets. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the intangible assets and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2014, the carrying amount of the Group's intangible assets is HK\$19,088,000 (2013: HK\$4,680,000). Details of the recoverable amount calculation are disclosed in note 18.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Key sources of estimation uncertainty (continued)

Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating units and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2014, the carrying amount of goodwill is HK\$9,432,000 (2013: nil). Details of the recoverable amount calculation are disclosed in note 19.

Estimated impairment of debtors

When there is objective evidence of impairment, the Group estimated impairment loss taking into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31st December, 2014, the carrying amount of trade debtors is HK\$403,966,000 net of allowance for doubtful debts of HK\$34,203,000 (2013: HK\$410,638,000 net of allowance for doubtful debts of HK\$29,283,000).

Determination of net realisable value of inventories

The cost of inventories is written down to net realisable value when the cost of inventories is not recoverable. The cost of inventories may not be recoverable if those inventories are damaged, if they have become wholly or partially obsolete, or if their selling prices have declined. Also, the cost of inventories may not be recoverable if the estimated costs to be incurred to make the sale have increased. When the net realisable value of an item of inventory is less than the carrying amount, the excess is written off immediately in the consolidated statement of profit or loss and other comprehensive income. As at 31st December, 2014, the carrying amount of inventories is HK\$216,199,000 net of allowance for inventories of HK\$69,328,000 (2013: HK\$208,148,000 net of allowance for inventories of HK\$80,096,000).

5. SEGMENT INFORMATION

Information reported to the executive directors, being the chief operating decision maker, for the purposes of resource allocation and assessment of performance is focused on geographical markets, based on the location of customers. Thus, the Group is currently organised into four segments which are sales of optical products to customers located in Europe, the United States, Asia and other regions.

Segment revenues and results

The following is an analysis of the Group's revenue and results by reportable and operating segment:

For the year ended 31st December, 2014

Interest income on bank deposits					564
Finance costs					(1,293)
Share of loss of a joint venture					(78)
Profit before tax					59,022

The accounting policies of the reportable and operating segments are the same as the Group's accounting policies described in note 3. Segment profit represents the profit earned by each segment without allocation of central administration costs, directors' emoluments, investment income, property rental income, royalty income, increase in fair values of investment properties, finance costs, expenses relating to the disposal of land and premises, share of loss of an associate, share of profit or loss of a joint venture, loss on deemed disposal of an available-for-sale investment and gain on disposal of subsidiaries. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and performance assessment.

At 31st December, 2014	130,250

All of the Group's investment properties are situated on land in Hong Kong which are held under a medium-term lease. These properties are measured using the fair value model and are classified and accounted for as investment properties.

In estimating the fair value of investment properties, it is the Group's policy to engage third party qualified external valuer to perform the valuation. The Group works closely with the qualified external valuers to establish the appropriate valuation technique and inputs to the model.

On 31st December, 2014, independent valuations were undertaken by Vigers Appraisal & Consulting Limited ("Vigers"), an independent firm of professional valuers not connected to the Group which has appropriate professional qualifications and recent experience in the valuation of similar properties in the neighbourhood.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

15. INVESTMENT PROPERTIES (continued)

The valuations have been arrived at using direct comparison approach with reference to comparable transactions in the open market and on the basis of vacant properties. One of the key inputs used in valuing the investment properties located in Hong Kong was the unit sale rate used. An increase in the unit sale rate used would result in an increase in fair value measurement of the investment properties, and vice versa.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The following table gives information about how the fair values of the Group's investment properties as at 31st December, 2014 are determined (in particular, the valuation techniques and inputs used), as well as the fair value hierarchy into which the fair value measurements are categorised (Levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

Investment properties held by the Group in the consolidated statement of financial position	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of unobservable inputs to fair value
Investment properties in Hong Kong	Level 3	Direct comparison method		
		The key input is		
		(1) Unit sale rate	Unit sale rate, taking into account the time, location, and individual factors, such as frontage and size, between the comparable and the property, ranging from HK\$9,600 to HK\$9,700 per square foot on gross floor area basis for properties and ranging from HK\$1,090,000 to HK\$1,100,000 per unit for car park spaces.	An increase in the unit sale rate used would result in an increase in the fair value measurement of the investment properties by the same percentage increase, and vice versa.

16. PROPERTY, PLANT AND EQUIPMENT (continued)

Note: During the year ended 31st December 2014, the Group changed the usage of certain properties from owner occupation to investment properties. Accordingly, the relevant portion of the properties with a net carrying value of HK\$90,599,000 was transferred from property, plant and equipment to investment properties at their fair values on the date of transfer of HK\$127,860,000 which were determined by the Directors with reference to the valuation carried out by Vigers at the dates of transfer. The difference between the fair values of these properties and their carrying values at the date of transfer amounting to HK\$37,261,000 has been credited to property revaluation reserve.

The above items of property, plant and equipment other than buildings under construction are depreciated on a straight-line basis at the following rates per annum:

Leasehold land	Over the remaining term of the leases
Buildings	Over the estimated useful lives of 25 years or the lease term of the land on which the buildings are located, if shorter
Leasehold improvements	Over the estimated useful lives of 3 years or the term of the lease, if shorter
Plant and machinery and motor vehicles	Over 5 years
Furniture, fixtures and office equipment	Over 3 to 5 years

At 31st December, 2014, leasehold land with carrying value of HK\$33,774,000 (2013: HK\$67,684,000) is situated in Hong Kong under medium-term lease and held under a finance lease.

The Group is in the process of obtaining the property ownership certificates in respect of certain buildings located in the PRC with carrying value of HK\$228,245,000 at 31st December, 2014 (2013: HK\$240,200,000).

The trademark purchased from an independent third party in 2006 is considered by the management of the Group as having an indefinite useful life.

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

18. INTANGIBLE ASSETS AND IMPAIRMENT TESTING ON INTANGIBLE ASSETS (continued)

The recoverable amount of the trademark has been determined on the basis of value in use calculations. The recoverable amount is based on certain key assumptions. All value in use calculations use cash flow projections based on latest financial budgets approved by the Company's management covering a period of 5 years with zero growth rate, and at a discount rate of 2% (2013: 3%). The cash flow projections beyond the 5-year period are extrapolated using a zero growth rate. Cash flow projections during the budget period for the trademark are based on the expected gross margins during the budget period. Budgeted gross margins have been determined based on past performance and management's expectations for the market development.

During the year ended 31st December, 2014, the costs of acquiring a non wholly-owned subsidiary which owns the customer relationships (see note 34) are allocated to the respective component of assets acquired on the basis of a valuation undertaken by an independent valuer on 16th July, 2014.

The Group has also purchased customer relationships from an independent third party for a consideration of €515,000 (equivalent to approximately HK\$4,856,000). The consideration was determined after arm's length negotiations between the parties. The customer relationships have finite useful lives and are carried at cost less accumulated amortisation and impairment losses. Amortisation is calculated using the straight-line method over the expected lives of the customer relationships, which are determined to be 10 years.

The trademark and customer relationships were tested for impairment at 31st December, 2014 by comparing their carrying amounts with their recoverable amounts. The management of the Group determined that there is no impairment loss for the current year.

Goodwill arises from the acquisition of a non wholly-owned subsidiary which is engaged in sale of optical products during the year ended 31st December, 2014 (see note 34). The Group identifies the business operated by the non wholly-owned subsidiary as the single cash-generating unit (“CGU”) with synergy effect to which the goodwill of HK\$9,432,000 is allocated.

The recoverable amount of the CGU has been determined on the basis of value in use calculations. The recoverable amount is based on certain key assumptions. All value in use calculations use cash flow projections based on latest financial budgets approved by the Company’s management covering a period of 5 years with 3% growth rate, and at a discount rate of 14%. The cash flow projections beyond the 5-year period are extrapolated using a 3% growth rate. Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the CGU’s past performance and management’s expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGU to exceed the aggregated recoverable amount of CGU.

The goodwill was tested for impairment at 31st December, 2014 by comparing the carrying amount of the CGU with the recoverable amount of the CGU. Accordingly, the management of the Group determined that there is no impairment loss for the current year.

(3) Movement of goodwill (continued)

The recoverable amount of the CGU has been determined on the basis of value in use calculations. The recoverable amount is based on certain key assumptions. All value in use calculations use cash flow projections based on latest financial budgets approved by the Company's management covering a period of 5 years with 3% growth rate, and at a discount rate of 15%. The cash flow projections beyond the 5-year period are extrapolated using a 3% growth rate. Other key assumptions for the value in use calculations relate to the estimation of cash inflows/outflows which include budgeted sales and gross margin, such estimation is based on the CGU's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the CGU to exceed the aggregated recoverable amount of CGU.

The goodwill was tested for impairment at 31st December, 2014 by comparing the carrying amount of the CGU with the recoverable amount of the CGU. The management of the Group determined that there is no impairment loss for the current year.

The Group's trade debtor balance and trade creditor balance due from/to the associate are disclosed in notes 25 and 27 respectively.

Details of the associate at the end of the reporting period are as follow:

Name of associate	Form of business structure	Place of incorporation/ registration and operation	Class of shares held	Proportion of nominal value of issued capital held by the Group		Proportion of voting power held		Principal activity
				2014	2013	2014	2013	
Trenti Industria Occhiali S.r.l. ("Trenti")	Incorporated	Italy	Ordinary	50%	13% (see note 23)	50%	13%	Manufacture and trading of eyewear products

The above interest in an associate is held through a wholly-owned subsidiary of the Company.

The Group holds 50% of the issued share capital of Trenti. However, under the agreement, the other shareholders control the composition of the board of directors of Trenti and have control over Trenti. The Directors consider that the Group does have significant influence over Trenti and it is therefore classified as an associate of the Group.

Loan to a joint venture	1,566 3,537	1,288 3,537
	5,103	4,825

Note: During the year ended 31st December, 2012, the Group acquired 25% interest in a joint venture at a cash consideration of approximately HK\$1,017,000. Goodwill of HK\$708,000 is included in the cost of investment in a joint venture.

In terms of a contractual agreement drawn up and signed between all five shareholders of Guangzhou Jiashimei Optical Company Limited, all decisions on financial policies must be agreed by unanimous consent between all five shareholders of the entity. Accordingly, there is a contractual sharing of control over Guangzhou Jiashimei Optical Company Limited and the investment in that entity is accounted for by the Group as an interest in a joint venture.

The loan to the joint venture of HK\$3,537,000 (2013: HK\$3,537,000) included in the Group's non-current assets is unsecured, carries interest at 0.01% per annum and not repayable within one year from the end of the reporting period. In the opinion of the Directors, the loan is considered as a quasi-equity investment in the joint venture.

The loan to the joint venture of HK\$225,000 (2013: HK\$739,000) included in the Group's current assets is unsecured, carries interest at 9% per annum and is repayable within one year from the end of the reporting period.

The Group's trade receivable balance due from the joint venture is disclosed in note 25.

22. LOAN RECEIVABLE (continued)

The loan receivable is granted to an independent corporate customer and is denominated in United States dollars. The amount carries fixed interest rate at 5% per annum and is repayable through 24 quarterly instalments of USD72,500 (equivalent to approximately HK\$562,000) commencing in October 2015 with a balance payment of USD17,500 (equivalent to approximately HK\$136,000) in October 2021 (2013: 25 quarterly instalments of USD72,500 (equivalent to approximately HK\$562,000) commencing in July 2014 with a balance payment of USD17,500 (equivalent to approximately HK\$136,000) in December 2020). The corporate guarantee granted by the Group to a financial institution in respect of banking facilities granted to this customer was exercised by the financial institution during the year ended 31st December, 2013, resulting in an addition to the loan receivable of USD1,250,000 (equivalent to approximately HK\$9,694,000) due from this customer. Management considers that the exposure to credit risk is insignificant as the amount is secured by all assets held by the corporate customer. The Group is not permitted to sell or repledge the collateral in the absence of default by the borrower. Repayments have been made by this corporate customer in accordance with the loan agreement.

23. AVAILABLE-FOR-SALE INVESTMENT

	2014 HK\$'000	2013 HK\$'000
Equity security, unlisted at cost	–	5,858

At 31st December, 2013, the Group held an unlisted investment of 13% equity interest in a private entity incorporated overseas engaged in the manufacture and trading of eyewear products.

During the year ended 31st December, 2014, the Group further acquired 37% interest in the entity, and had a significant influence over the entity. The investment in that entity was transferred from available-for-sale investment to interest in an associate at its fair value on the date of transfer of HK\$5,464,000 which were determined by the Directors with reference to the valuation carried out by an independent valuer (see note 20). The difference between the fair value of the investment and its carrying value at the date of transfer amounting to HK\$394,000 has been recognised in profit or loss as a loss on deemed disposal.

The following is an aged analysis of bills receivable based on the invoice date at the end of the reporting period which approximated the respective revenue recognition dates:

	2014 HK\$'000	2013 HK\$'000
0 – 90 days	1,191	2,415
91 – 180 days	127	228
	1,318	2,643

The Group has a policy of allowing a credit period of 30 days to 120 days to its trade debtors. No interest is charged on the trade debtors. The Group has provided fully for all receivables past due beyond 360 days because historical experience is such that receivables that are past due beyond 360 days are generally not recoverable. Trade debtors past due between 60 days and 360 days are provided for based on estimated irrecoverable amounts from the sale of goods, determined by reference to past default experience and subsequent settlement.

Before accepting any new customer, the Group carries out research on the creditability of new customer and assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed at least once a year. Trade debtors that are neither past due nor impaired have good track records with the Group.

Included in the Group's trade debtor balance are debtors with aggregate carrying amount of HK\$78,462,000 (2013: HK\$92,456,000) which are past due at the reporting date for which the Group has not provided for impairment loss, as there has not been a significant change in credit quality and the amounts are still considered recoverable based on the historical experience. The Group does not hold any collateral over these balances.

Acquisition of a subsidiary	75	–
Exchange realignment	(22)	62
At 31st December	34,203	29,283

In determining the recoverability of a trade debtor, the Group considers any change in the credit quality of the trade debtor from the date credit was initially granted up to the end of each reporting period. The Directors believe that there is no further credit provision required in excess of the allowance for doubtful debts.

Included in the allowance for doubtful debts were individually impaired trade receivables with an aggregate balance of HK\$34,203,000 (2013: HK\$29,283,000) which are in severe financial difficulties and therefore the Directors considered that they are irrecoverable.

Notes to the Consolidated Financial Statements

Note: The amount represents the net temporary differences arising from capitalisation of production cost of inventories at Group level and unrealised profits on the inventories arising from intra-group sales.

For the purpose of presentation in the consolidated statement of financial position, certain deferred tax assets and liabilities have been offset. The following is the analysis of the deferred tax balances for financial reporting purposes:

	2014 HK\$'000	2013 HK\$'000
Deferred tax assets	934	114
Deferred tax liabilities	(9,957)	(10,085)
	(9,023)	(9,971)

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

30. DEFERRED TAX (LIABILITIES) ASSETS (continued)

At 31st December, 2014, the Group has unused tax losses of HK\$68,154,000 (2013: HK\$43,742,000) available to offset against future profits. No deferred tax asset has been recognised in respect of such losses due to the unpredictability of future profit streams. Included in unrecognised tax losses are losses of HK\$44,686,000 (2013: HK\$31,233,000) that will expire from 2015 to 2019 (2013: expire from 2014 to 2018). Other losses may be carried forward indefinitely.

At the end of the reporting period, the Group has deductible temporary differences of HK\$38,740,000 (2013: HK\$35,147,000). No deferred tax asset has been recognised in relation to such deductible temporary difference as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

31. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits, as disclosed in the consolidated statement of changes in equity.

The Directors review the capital structure periodically. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the management of the Group, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the redemption of existing debt, if necessary.

(b) Financial risk management objectives and policies

The Group's major financial instruments include debtors, loan receivable, loans to a joint venture, available-for-sale investment, short-term bank deposits, bank balances and cash, creditors and accrued charges, and bank borrowings. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

The Group does not enter into or trade derivative financial instruments either for hedging or speculative purposes.

Market risk

There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

(i) Foreign currency risk management

Several subsidiaries of the Group have foreign currency sales and purchases, which expose the Group to foreign currency risk. The Group also has trade and other debtors, short-term bank deposits, bank balances and cash as well as trade and other creditors denominated in foreign currency balances. Details of foreign currency balances are detailed in notes 25, 26 and 27.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	Assets		Liabilities

32. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

Market risk (continued)

(i) Foreign currency risk management (continued)

Foreign currency sensitivity

The Group is mainly exposed to the effects of fluctuation in currency of Renminbi, Euro and Japanese Yen. The Hong Kong dollars (“HKD”) and United States dollars (“USD”) denominated monetary items arise from group entities with functional currency of USD and HKD respectively. As HKD is pegged to USD, the Directors consider that the foreign currency exposure is limited.

The following table details the Group’s sensitivity to a 5% (2013: 5%) increase and decrease in the functional currencies of the relevant group entities against the relevant foreign currencies. 5% (2013: 5%) represents management’s assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items (other than those denominated in HKD and USD) and adjusts their translation at the period end for a 5% (2013: 5%) change in foreign currency rates. A positive number below indicates a decrease in post-tax loss (2013: an increase in post-tax profit) where the functional currencies of the relevant group entities strengthen against the relevant foreign currencies. For a 5% (2013: 5%) weakening of the functional currencies of the relevant group entities, there would be an equal and opposite impact on the post-tax loss (2013: post-tax profit), and the balances below would be negative.

	Decrease in loss for the year (post-tax) 2014 HK\$'000	Increase in profit for the year (post-tax) 2013 HK\$'000
Renminbi	701	767
Euro	310	102
Japanese Yen	60	41

In management’s opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

32. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

Market risk (continued)

(ii) Interest rate risk management

The Group is exposed to fair value interest rate risk in relation to fixed rate loans to a joint venture (see note 21 for details of these loans) and fixed rate loan receivable (see note 22 for details of this loan receivable).

The Group's cash flow interest rate risk relates primarily to variable-rate short-term bank deposits, bank balances and borrowings (see note 28 for details of these borrowings). It is the Group's policy to keep its borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Prime Rate and HIBOR arising from the Group's borrowings.

Interest rate risk sensitivity

Sensitivity analysis on bank balances is not presented as the management considers that the Group's exposure to interest rate fluctuation is insignificant.

The sensitivity analysis below has been determined based on the exposure to interest rates for short-term bank deposits placed and borrowings outstanding at the end of the reporting period. The analysis is prepared assuming the short-term bank deposits placed and borrowings outstanding at the end of the reporting period were placed and outstanding for the whole year. A 50 basis point (2013: 50 basis point) represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points (2013: 50 basis points) higher/lower and all other variables were held constant, the Group's post-tax loss for the year ended 31st December, 2014 would decrease/increase by HK\$1,701,000 (2013: post-tax profit for the year would decrease/increase by HK\$209,000). This is mainly attributable to the Group's exposure to interest rates on its short-term bank deposits placed and borrowings outstanding.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk inherent in the financial assets and financial liabilities as the year end exposure does not reflect the exposure during the year.

Notes to the Consolidated Financial Statements

32. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

Credit risk management

As at 31st December, 2014, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts, taking into account any change in the credit quality of the trade debtors from the date credit was initially granted up to the reporting date. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The loan receivable exposes the Group to concentration of credit risk on a single counterparty. The Group considers that the concentration risk is low as the corporate customer has good reputation.

The credit risk for bank deposits is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Other than concentration of credit risk on the loan receivable and liquid funds which are deposited with several banks with high credit ratings, the Group has concentration of credit risks with exposure limited to certain customers. At the end of reporting period, five customers of the Group accounted for about 52% (2013: 57%) of the Group's trade debtors. These five customers are leading global players of the eyewear industry and distribute eyewear products under their portfolio of fashion brands through their global distribution and/or retailing networks. The Group considers that the concentration of risk is low as these five customers have good reputation and payment records. Apart from delegating a team for determining the credit limits, credit approval and other monitoring procedures on customers, the Group had also explored new markets and new customers in order to minimise the concentration of credit risk.

32. FINANCIAL INSTRUMENTS (continued)

(b) Financial risk management objectives and policies (continued)

Liquidity risk management

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management also monitors the utilisation of bank borrowings.

As at 31st December, 2014, the Group has available unutilised overdrafts and short and medium term bank loan facilities of approximately HK\$4,600,000 (2013: HK\$4,600,000) and HK\$90,570,000 (2013: HK\$162,630,000) respectively. The facilities expiring within one year are annual facilities subject to review at various dates during 2015.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amounts is derived from interest rate curve at the end of the reporting period.

	Weighted average effective interest rate %	On demand or less than 3 months HK\$'000	3 months to 1 year HK\$'000	Total undiscounted cash flows HK\$'000	Carrying amount at 31.12.2014 HK\$'000

Bank borrowings with a repayment on demand clause are included in the “on demand or less than 3 months” time band in the above maturity analysis. As at 31st December, 2014 and 31st December, 2013, the aggregate undiscounted principal amounts of these bank borrowings amounted to HK\$94,243,000 and HK\$41,884,000 respectively. Taking into account the Group’s financial position, the Directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The Directors believe that these outstanding bank borrowings at 31st December, 2014 will be fully repaid by June 2024 in accordance with the scheduled repayment dates set out in the loan agreements. On that basis, the aggregate principal and interest cash outflows will amount to HK\$100,540,000 (2013: HK\$47,926,000) for financial liabilities of the Group as at 31st December, 2014.

The amounts included above for variable interest rate instruments for non-derivative financial liabilities are subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

32. FINANCIAL INSTRUMENTS (continued)

(c) Fair values measurements

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

33. RETIREMENT BENEFIT SCHEMES

The Group has joined a Mandatory Provident Fund Scheme (“MPF Scheme”) for all qualifying employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Schemes Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

In addition to the MPF Scheme, the Group voluntarily set up a retirement benefit scheme in Hong Kong for selected employees in the PRC since 2007 for the benefits of those selected PRC employees who have provided over five years of services to the Group. During the year ended 31st December, 2014, the cost charged to profit or loss of HK\$2,908,000 (2013: HK\$2,923,000) represents contributions payable to this scheme by the Group in respect of services provided by the selected PRC employees in 2014. This retirement benefit scheme is registered with the Mandatory Provident Fund Schemes Authority under the Occupational Retirement Schemes Ordinance. The assets of the retirement benefit scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the retirement benefit scheme, only the employer is required to make contributions to the scheme at the amounts specified in the rules. The only obligation of the Group with respect to the retirement benefit scheme is to make the required contributions under the scheme.

As stipulated under the rules and regulations in the PRC, the subsidiaries established in the PRC are required to contribute certain percentage of payroll costs of its employees to a state-managed retirement scheme operated by the provincial governments for its employees in the PRC. After the contribution, the Group has no further obligation for actual payment of the retirement benefits.

The retirement benefit scheme contributions arising from the above retirement schemes charged to profit or loss represent contributions payable to the funds by the Group at rates specified in the rules of the schemes.

The total cost charged to the consolidated statement of profit or loss and other comprehensive income of HK\$26,185,000 (2013: HK\$22,250,000) represents contributions paid and payable to these schemes by the Group. At the end of reporting period, there was no forfeited contribution available to reduce future contributions in both years.

34. ACQUISITION OF A SUBSIDIARY

On 16th July, 2014, Stepper Eyewear Limited (“Stepper HK”), a non wholly-owned subsidiary of the Company, entered into a share purchase agreement with an independent third party, Rayner & Keeler Limited (“Vendor”), pursuant to which the Vendor agreed to sell and Stepper HK agreed to purchase the entire issued share capital of Stepper (UK) Limited (“Stepper UK”), for the consideration of £2,517,230 (equivalent to approximately HK\$33,466,000). On the same date, the parties also entered into a debt assignment deed, pursuant to which the Vendor irrevocably assigned to Stepper HK the benefit of the the intercompany balance of £214,490 (equivalent to approximately HK\$2,852,000) due from Stepper UK to the Vendor for the consideration of £214,490 (equivalent to approximately HK\$2,852,000). The aggregate consideration for the acquisition and the assignment of the debt is £2,731,720 (equivalent to approximately HK\$36,318,000). The consideration was determined after arm’s length negotiations between Stepper HK and the Vendor and the transactions were completed on 16th July, 2014. Stepper UK became a non wholly-owned subsidiary of the Company. The transaction has been accounted for as business combination using the acquisition method.

Stepper UK has been the distributor for optical frames under the Group’s owned brand “STEPPER” in the United Kingdom since 2000. The acquisition provided a good opportunity for the Group to further expand its global distributor network of its owned brands products.

Included in the loss for the year is a profit of HK\$3,542,000 attributable to the additional business generated by Stepper UK. Revenue for the year includes HK\$23,080,000 in respect of Stepper UK.

Had the business combination been effected at 1st January, 2014, the revenue of the Group would have been HK\$1,624,875,000 and the loss for the year would have been HK\$94,387,000. The Directors consider these 'pro-forma' numbers to represent an approximate measure of the performance of the combined group on an annualised basis and to provide a reference point for comparison in future periods.

35. DISPOSAL OF SUBSIDIARIES

On 21st August, 2013, Arts Optical (Heyuan) Company Limited (“Arts Heyuan”), a wholly-owned subsidiary of the Company, entered into two equity transfer agreements (the “Equity Transfer Agreements”) with an independent third party (the “Purchaser”). Pursuant to the Equity Transfer Agreements, Arts Heyuan agreed to sell and the Purchaser agreed to purchase the entire equity interests in 滙聯眼鏡製造廠(河源)有限公司 (Huilian Optical Manufactory (Heyuan) Limited) (“Huilian”) and 滙龍眼鏡五金配件(河源)有限公司 (Huilion Optical Manufactory (Heyuan) Limited) (“Huilion”), both were subsidiaries of the Company, at an aggregate consideration of HK\$22,000,000. The consideration was determined after arm’s length negotiations between Arts Heyuan and the Purchaser and the transactions were completed on 6th December, 2013.

Huilian and Huilion are principally engaged in investment holding. The principal assets owned by Huilian and Huilion are two parcels of land located at Planning Area No. 1 of Guzhu Town Development Zone, Zijin County, Heyuan City, Guangdong Province, the PRC with a total site area of 308,887.10 square metres.

38. RELATED PARTY TRANSACTIONS

Argent Optical Manufactory Limited (“Argent”), a wholly-owned subsidiary of the Company, entered into a relocation agreement with 深圳市橫崗佳兆業投資諮詢有限公司 (Shenzhen Henggang Kaisa Investment Consulting Co., Ltd.) (“Kaisa Property”) and 佳兆業集團 (深圳) 有限公司 (Kaisa Group (Shenzhen) Co., Ltd.) (“Kaisa Shenzhen”) on 15th August, 2014 in relation to the Disposal (see note 10) for a total consideration of RMB1,579,700,000 (equivalent to approximately HK\$1,989,500,000). On the same day, each of Mr. Ng Hoi Ying, Michael (a director and the chairman of the Company), Mr. Ng Kim Ying (a director of the Company), Mr. Li Chi Hung (a member of the senior management of the Company) and Mr. Hung Chao Chia (a member of the senior management of the Company) (collectively the “Individuals”) entered into an individual relocation agreement with Kaisa Property and Kaisa Shenzhen in respect of facilitating Kaisa Property to become the named developer of the Argent Urban Renewal Project and the disposal of four pieces of land owned by the Individuals. Additionally, on 15th August, 2014, Argent and 深圳市全聯行地產顧問有限公司 (Shenzhen Quanlianhang Property Consulting Co., Ltd.) (“QLH Property”) entered into an agreement (“Service Agreement”) for the provision of consultation services by QLH Property to Argent in relation to the Disposal. Pursuant to the Service Agreement, Argent would pay a total service fee of RMB117,000,000 (equivalent to approximately HK\$147,400,000) to QLH Property by instalments. Argent had paid RMB81,900,000 (equivalent to approximately HK\$103,789,000) to QLH Property during the year ended 31st December, 2014. As such, the entering into of the Service Agreement between Argent and QLH Property constituted a non-exempt connected transaction of the Company under Chapter 14A of the Listing Rules and was subject to the reporting, announcement and approval requirements thereunder. The Service Agreement was approved by the independent shareholders of the Company at the special general meeting held on 8th October, 2014.

Save as disclosed above, the Group entered into the following transactions with related parties during the year:

	An associate		A joint venture	
	2014 HK\$'000	2013 HK\$'000	2014 HK\$'000	2013 HK\$'000

Notes to the Consolidated Financial Statements

For the year ended 31st December, 2014

38. RELATED PARTY TRANSACTIONS (continued)

Sales of goods to the associate and joint venture were made at the Group's usual list prices.

Other than the above, the details of loans to, trade receivable from and trade payable to the associate and joint venture are shown in notes 21, 25 and 27 respectively. No guarantees have been given to or received from the associate and joint venture.

Compensation of key management personnel

The remuneration of Directors and other members of key management during the year was as follows:

	2014 HK\$'000	2013 HK\$'000
Short-term benefits	10,007	9,348
Post-employment benefits	410	390
	10,417	9,738

The remuneration of executive directors and key executives was determined by the Remuneration Committee having regard to the performance of individuals and market trends. The remuneration of independent non-executive directors was recommended by the board of Directors and approved by the shareholders of the Company at the annual general meeting.

Note: These subsidiaries are registered as wholly foreign-owned companies.

The above table lists the subsidiaries of the Company which, in the opinion of the Directors, principally affected the results for the year or formed a substantial portion of the assets and liabilities of the Group. To give details of other subsidiaries would, in the opinion of the Directors, result in particulars of excessive length.

None of the subsidiaries had any debt securities subsisting at 31st December, 2014 or at any time during the year.

40. EVENTS AFTER THE REPORTING PERIOD

1. On 1st January, 2015, Stepper HK entered into four sale and purchase agreements with four members of the management team (“Stepper UK Team”) of Stepper UK pursuant to which Stepper HK would sell and the Stepper UK Team would purchase a total of 25% of the issue share capital of Stepper UK for an aggregate consideration of £718,250 (equivalent to approximately HK\$8,669,000) (the “Stepper UK Price”). The Stepper UK Price was determined by the parties at arm’s length negotiations with reference to the price paid by the Group for the acquisition of Stepper UK in July 2014 and the post-acquisition profits earned by Stepper UK. The purpose of the sale of the 25% interest in Stepper UK was to motivate the Stepper UK Team towards higher level of performance of Stepper UK. In the opinion of the Directors, this transaction would not have any significant impact on the consolidated results of the Group in 2015.
2. On 1st January, 2015, Stepper HK also entered into four sale and purchase agreements with four members of the management team (“Stepper France Team”) of Stepper France, a non wholly-owned subsidiary of the Company, pursuant to which (i) Stepper HK would sell and the Stepper France Team would purchase a total of 20% of the issue share capital of Stepper France for an aggregate consideration of €10,000 (equivalent to approximately HK\$94,000) (the “Stepper France Share Price”) and (ii) Stepper HK would assign its interest in its loan to Stepper France with a face value of €240,000 (equivalent to approximately HK\$2,263,000) to the Stepper France Team for an aggregate consideration of €240,000 (equivalent to approximately HK\$2,263,000) (the “Stepper France Loan Price”). The Stepper France Share Price and the Stepper France Loan Price were determined by the parties at arm’s length negotiations with reference to the nominal value of the share capital of Stepper France transferred and face value of the shareholder’s loan assigned respectively. The purpose of the sale of the 20% interest in Stepper France and assignment of shareholder’s loan was to motivate the Stepper France Team towards higher level of performance of Stepper France. In the opinion of the Directors, this transaction would not have any significant impact on the consolidated results of the Group in 2015.
